Science But Not Scientists Vernon L. Grose, 2006-10 The historic Science Textbook Struggle a worldwide battle about the origin of the universe life and man erupted without warning It caught the scientific illuminati completely by surprise Why Because science textbooks had become filled with wild unbelievable stories about the beginning of everything And those tales were simply not scientific The universe starting with a Big Bang life arising out of a soup of lifeless amino acids humans produced by apes those myths had only replaced ancient Greek mythology and were being passed off as scientific truths Caught in the crossfire between educators news media textbook publishers religious notables and world renowned scientists including nineteen Nobel laureates was a private citizen Father of six schoolchildren he had only one goal to prove that science never will have answers for origins He was up against the arrogance of scientists who were determined to disguise their private beliefs as being the only explanations for the origin of the universe life and man This story concludes with a great victory for objectivity with more than 200 changes being made in textbooks over the objections of the National Academy of Sciences All discussion about origins was transformed by admission that stories about them are based solely on personal views of individual scientists Remarkably 3 000 scientists around the world later signed an affirmation to assure that this issue of

belief over fact in science never be repeated Wernher von Braun father of America's space program writes in the Foreword Vernon Grose in tracing out in *Science But Not Scientists* his personal involvement in the vortex of these two forces illustrates one more time the humanity of scientists their likelihood of being just as prejudiced and bigoted as anyone untrained in science He properly calls for objectivity rather than scientific consensus He rightly urges that message rather than messenger should be scrutinized and tested for validity Science will be the richer and humanity the ultimate beneficiary by heeding this clarion call

The Newly Qualified Secondary Teacher's Handbook Kevan Bleach, 2013-12-16 Written to coincide with the introduction of Induction Standards for new entrants to the teaching profession this text aims to help to smooth the transition from theory and supervised teaching to independent reflexive practice It provides a combination of explanation challenge practical activities and authentic case studies The author acknowledges the importance of professional development during the induction year and advocates the gradual implementation and reinforcement of effective strategies for good teaching He also urges readers to develop the creative intuitive and natural born abilities that help to fashion their own individual teaching styles Though informed by the Induction Standards the aim of the book is to help teachers set ambitious personal and professional expectations through which they will realize their full potential

Beyond Facts Harry G. Miller, Reed G. Williams, Thomas M. Haladyna, 1978 From Zeus and Europa to Diana Pan and Prometheus the myths of ancient Greece and Rome seem to exert a timeless power over us But what do those myths represent and why are they so enduringly fascinating Why do they seem to be such a potent way of talking about our selves our origins and our desires This imaginative and stimulating Very Short Introduction goes beyond a simple retelling of the stories to explore the rich history and diverse interpretations of classical mythology It is a wide ranging account examining how classical myths are used and understood in both high art and popular culture taking the reader from the temples of Crete to skyscrapers in New York and finding classical myths in a variety of unexpected places from Arabic poetry and Hollywood films to psychoanalysis the Bible and New Age spiritualism
