A-Level Biology Charlotte Burrows,Christopher Lindle,Christopher McGarry,Claire Plowman,Rachael Rogers,Hayley Thompson,2015 *The School Science Review* ,2002 *High-Stakes Testing in Education* Theo Eggen,Gordon Stobart,2015-10-14 High stakes educational testing is a global phenomenon which is increasing in both scale and importance Assessments are high stakes when there are serious consequences for one or more stakeholders Historically tests have largely been used for selection or for providing a licence to practise making them high stakes for the test takers Testing is now also used for the purposes of improving standards of teaching and learning and of holding schools accountable for their students results These tests then become high stakes for teachers and schools especially when they have to meet externally

imposed targets More recent has been the emergence of international comparative testing which has become high stakes for governments and policy makers as their education systems are judged in relation to the performances of other countries In this book we draw on research which examines each of these uses of high stakes testing The articles evaluate the impact of such assessments and explore the issues of value and fairness which they raise To underline the international appeal of high stakes testing the studies are drawn from Australia Africa the Caribbean Europe former Soviet republics and North America Collectively they illustrate the power of high stakes assessment in shaping for better or for worse policy making and schooling This book was originally published as a special issue of Assessment in Education Principles Policy Practice
