When behavior becomes a cultural style berserk abandon is terrifying yet also alluring It promises access to extraordinary resources by overthrowing inhibitions Berserk style has shaped many areas of contemporary American culture from warfare to politics and intimate life Focusing on post Vietnam America and using perspectives from psychology anthropology and physiology Farrell demonstrates the need to unpack the confusions in language and cultural fantasy that drive the nation s fascination with berserk style This book amazes me with its audacity its clarity and its scope We usually think of berserk behaviors from apocalyptic rampage killings to ecstatic revels like Burning Man as extremes of experience outside ordinary lives With rich evidence and fascinating detail Farrell shows how contemporary culture has re framed many varieties of the berserk into self conscious strategies of sense making and control Beyond real but remote actions of the intoxicated or deranged berserk style has become a common lens for organizing modern experience and an often troubling resource for mobilizing and rationalizing cultural and political action This landmark analysis both enlightens and empowers us Les Gasser Professor of Information and Computer Science University of Illinois Urbana Champaign Drawing from a storehouse of cinema news stories ads cartoons literature and lyrics from the post Vietnam era Farrell has painted a masterful disturbing portrait of the American subconscious James Aho author of *Sociological Trespasses* Farrell has undertaken yet another fascinating journey He explores phenomena such as Columbine Mike Tyson Going Postal and Wall Street excesses to reveal an underlying style of thinking that is pervasive in American culture As always he is a provocative and highly readable cultural critic Don Dutton Professor of Psychology University of British Columbia *Lesbian Porn Magazines and the Sex Wars* Elizabeth Groeneveld, 2023-04-18

literature has been the slave of politics at least since 1948 and especially during the Cultural Revolution So repressed and convoluted is most Chinese literature that the West cannot read it as literature at all but rather as sociological and political texts Professor Duke believes this has changed enough since 1977 to permit genuine literary analysis This book surveys and analyzes the most important literary events in the PRC from 1977 to 1982 Chapter I covers the significant changes in the Chinese Party line on literature and art during this period and thus provides the backdrop for literary and artistic endeavor Subsequent chapters deal with the critique of Chinese literature by China's own writers the neo realistic fiction of 1979-80 the nonfiction works of a courageous investigative reporter for the People's Daily and the theme of humanism and its treatment in the works of Bai Hua and Dai Houying The final chapter discusses the post Mao generation of young writers who are trying to create works that go beyond narrowly ideological boundaries of the past and reach toward a true modern Chinese literature

Literary Bondage William Luis, 1990-03-01 In the nineteenth century the Cuban economy rested on the twin pillars of sugar and slaves Slavery was abolished in 1886 but one hundred years later Cuban authors were still writing antislavery narratives William Luis explores this seeming paradox in his groundbreaking study *Literary Bondage* asking why this literary genre has remained a viable means of expression Applying Foucault's theory of counter discourse to a vast body of antislavery literature Luis shows how these narratives have always served to undermine the foundations of slavery to protest the marginalized status of blacks in Cuban society and to rewrite the canon of acceptable history and literature He finds that emancipation did not end the need for such counter discourse and reveals how the antislavery narrative continues to provide a forum for voices that have been silenced by the dominant culture In addition to such well known works as Cecilia Vald's *The Kingdom of This World* and *The Autobiography of a Runaway Slave* Luis draws on many literary works outside the familiar canon including Romualdo uno de tantos Aponte Sof aLa familia Unz azu El negrero and Los guerrilleros negros This comprehensive coverage raises important questions about the process of canon formation and brings to light Cuba's rich heritage of Afro Latin literature and culture

Self and Story in Russian History Laura Engelstein, Stephanie Sandler, 2018-08-06 Russians have often been characterized as people with souls rather than selves Self and Story in Russian History challenges the portrayal of the Russian character as selfless self effacing or self torturing by exploring the texts through which Russians have defined themselves as private persons and shaped their relation to the cultural community The stories of self under consideration here reflect the perspectives of men and women from the last two hundred years ranging from westernized nobles to simple peasants from such famous people as Tolstoy Dostoyevsky Akhmatova and Nicholas II to lowly religious sectarians Fifteen distinguished historians and literary scholars situate the narratives of self in their historical context and show how since the eighteenth century Russians have used expressive genres including diaries novels medical case studies films letters and theater to make political and moral statements The first book to examine the narration of self as idea and ideal in Russia this vital work contemplates the shifting historical manifestations of identity the strategies of self creation and the diversity of narrative forms Its authors establish that there is a history of the individual in Russian culture roughly analogous to the one associated with the West

The Spirit of Atonement Steven M. Stuebaker, 2021-01-14 Steven M Stuebaker proposes a Pentecostal approach to a major Christian doctrine the atonement The book moves Pentecostal theology of the atonement from a primarily Christocentric and crucicentric register to one that articulates the pneumatological and holistic nature of Pentecostal praxis Stuebaker examines the irony of Classical Pentecostalism relying on the Christocentrism of Protestantism evangelical atonement theology to articulate its experience of the Holy Spirit as well as the Pneumatological nature of Pentecostal praxis He then develops a Pentecostal theology of atonement based on the biblical narrative of the Spirit of Pentecost and returns to re imagine an expanded vision of

Pentecostal praxis based on the theological formation of the biblical narrative The result is a Pentecostal atonement theology that shows the integrated nature of pneumatology creation and Christology in the biblical narrative of redemption It gives theological expression to not only the pneumatological nature of Pentecostal praxis but also the fundamental role of the Holy Spirit in the biblical narrative of redemption The book challenges popular western atonement theologies to re think their Christocentrism and crucicentrism as well as their atomistic tendency to separate soteriology into objective Christological and subjective pneumatological categories
