[The Codex of the Endangered Species Act](#) Lowell E. Baier, 2023-07-25 The Endangered Species Act of 1973 ESA is one of the most cherished and reviled laws ever passed It mandates protection and preservation of all the nation s species and biodiversity whatever the cost It has been a lightning rod for controversy and conflicts between industry business and environmentalists The year 2023 marks the 50th anniversary of this law and provides an opportunity for a measured and thorough evaluation thereof We cannot know today s challenges and opportunities without understanding their histories This book is the most comprehensive history of the ESA ever published and the first to consider the entire history of the law from all angles in a single volume The history of the ESA has been one of increasing impact complexity and controversy In 1978 the Supreme Court declared that Congress intended for the U S government to save all species at any cost and thereafter application of the ESA became steadily more controversial as seen in the example of the northern spotted owl and the timber wars in the Pacific Northwest in the late 1980s and early 90s and then everywhere as the ESA became a political football in the highly partisan environment of the late 1990s and amendments to the law ceased This book is not only a history but a call to action It will take more conservation more funding and more innovative solutions if we are to save our wildlife and biodiversity It will take the engagement to every American to muster the collective will to meet this challenge The hope of this book is that we will be able to look back and say that we

accomplished more in the second 50 years of the ESA than we did in the first

This book provides a socio legal examination of the media's influence on the development and implementation of criminal justice policy. This impact is often assumed. And especially in the wake of high profile crimes the press is routinely observed calling for sentences to be harsher and for governments to be tougher on crime. But how do we know that there is a connection? To answer this question the book draws on a case study of the media reporting of the rape and murder of Jill Meagher in Melbourne Australia as well as other well known cases including those of James Bulger, Sarah Payne, Stephen Lawrence and Michael Brown among others. Deploying a socio legal framework to examine how the media's often powerful and emotive narratives play a crucial role in the development and implementation of law the book provides a deep and critical reflection on its influence. The book concludes with a number of suggestions for media reform both to moderate the media's influence and to incorporate a broader range of viewpoints. This multi disciplinary book will appeal to scholars and students in sociolegal studies, criminology and criminal law as well as those working in relevant areas in sociology and media studies.
