

Sample Essay on A World View of Cultural Diversity

Cultural diversity is also called multiculturalism. It is having a heart and mind that acknowledges, accepts, values and celebrates different ways via which people live and interact all over the world (AHRC, 2012). Everybody is embraced by cultural diversity regardless of their cultural differences. People are united by cultural diversity through common aspects that include acceptance, well-being, security, esteem and physical, emotional and spiritual equity. The basis of multiculturalism is the ideologies that people should value and maintain cultural practices instead of ignoring them. The basis of this belief is the foundation that there is a significant contribution made by each culture and race in the American history. As Sowell (2010) says, there were cultural features that were not just different from the others but also better. As such, the better and good part of the culture has facilitated history evolution. The cultural diversity concept is explained in this paper from the viewpoint of Sowell (Sowell, 2010).

Religious beliefs, ethnicity, economic background, sexual orientation, physical appearance, education, geographic background, cognitive style, age, culture and race are characteristics of cultural diversity. Sowell (2010) notes that, people have retained culture to serve the practical human race's requirements of passing generational experience as well as the earned knowledge throughout the years down to the inexperienced current generation and to spare the next generation from trying and failing and the costly process of learning from scratch. Sowell (2010) agrees that, culture is practically the determinant factor which differentiates the lifestyles of people while providing several examples in regards to the evolution and technology. For instance, Sowell talks about paper as well as printing that the Chinese practiced originally and this was a custom's aspect but this has

Revolution Richard Reid,2025-01-28 A panoramic global history of Africa in the age of imperialism Africa s long nineteenth century was a time of revolutionary ferment and cultural innovation for the continent s states societies and economies Yet the period preceding what became known as the Scramble for Africa by European powers in the decades leading up to World War I has long been neglected in favor of a Western narrative of colonial rule *The African Revolution* demonstrates that the Scramble and the resulting imperial order were as much the culmination of African revolutionary dynamics as they were of European expansionism In this monumental work of history Richard Reid paints a multifaceted portrait of a continent on the global stage He describes how Africa witnessed the emergence of new economic and political dynamics that were

underpinned by forms of violence and volatility not unlike those emanating from Europe Reid uses a stretch of road in what is now Tanzania one of the nineteenth century s most vibrant commercial highways as an entry point into this revolutionary epoch weaving a broader story around characters and events on the road He integrates the African experience with new insights into the deeper currents in European societies before and after conquest and he shows how the Africans themselves created opportunities for European expansion Challenging the portrayal of Africa s transformative nineteenth century as a mere prelude to European colonialism The African Revolution reveals how this turbulent yet hugely creative era for Africans intersected with global intrusions to shape the modern age
