Extractive Industries and Changing State Dynamics in Africa Jon Schubert, Ulf Engel, Elísio Macamo, 2018-07-04 This book uses extractive industry projects in Africa to explore how political authority and the nation state are reconfigured at the intersection of national political contestations and global transnational capital Instead of focusing on technological zones and the new social assemblages at the actual sites of construction or mineral extraction the authors use extractive industry projects as a topical lens to investigate contemporary processes of state making at the state corporation nexus Throughout the book the authors seek to understand how public political actors and private actors of liberal capitalism negotiate and redefine notions and practices of sovereignty by setting legal regulatory and fiscal standards Rather than
