

Remember that walls on the exterior side and floor panels through the ceiling have to be secured on the convenient side only.

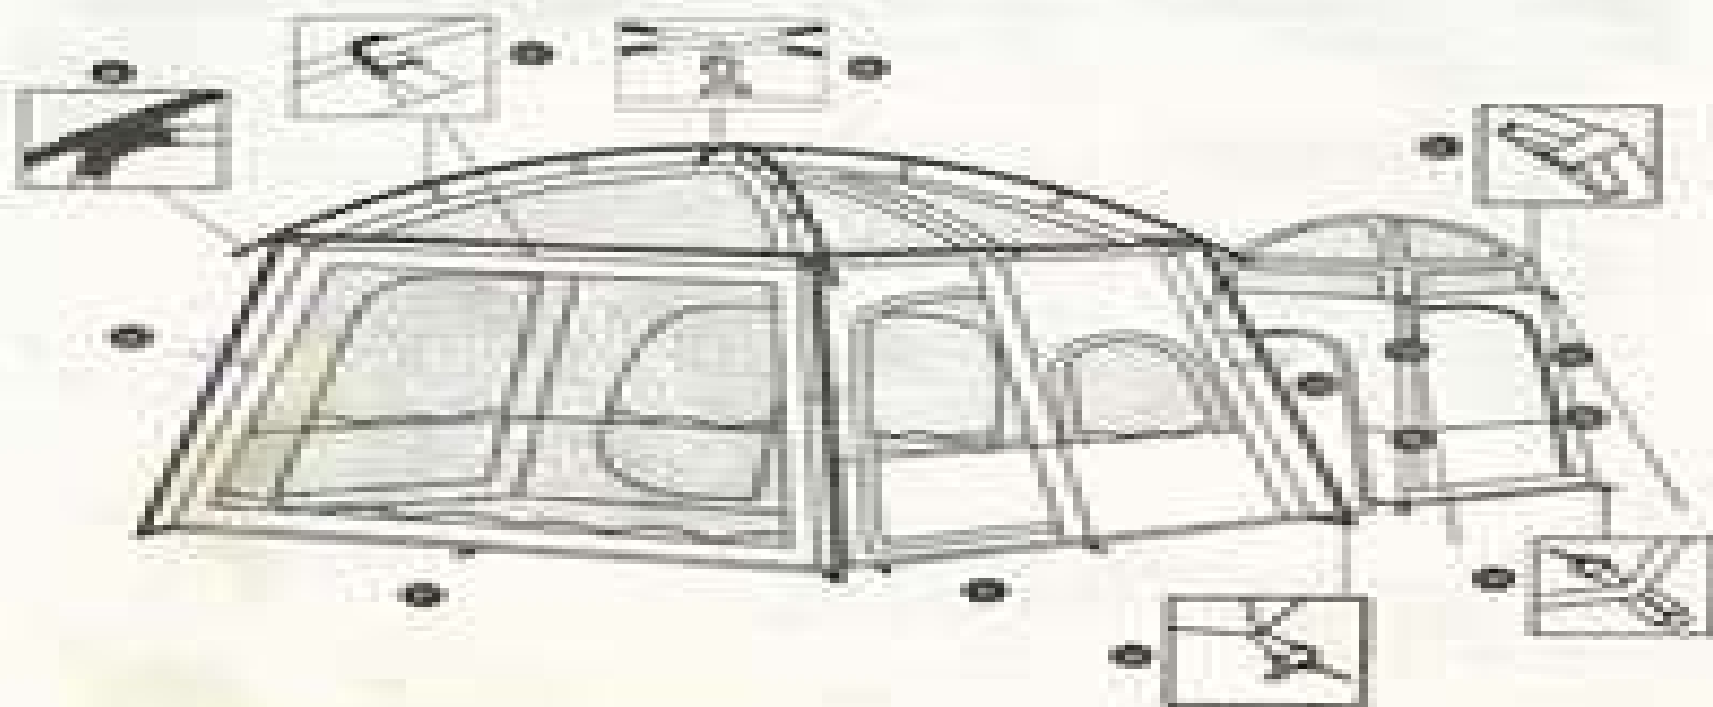

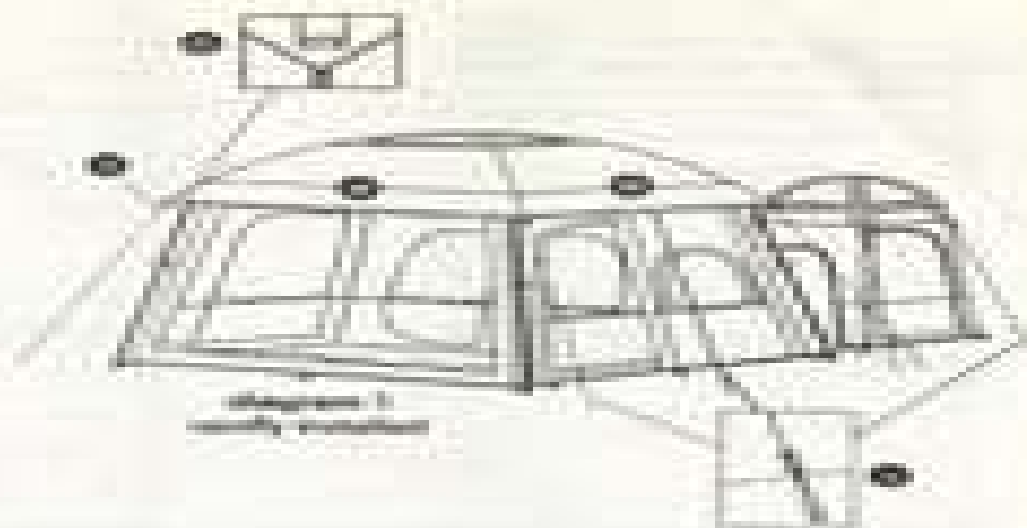

Install the guy lines as provided on the tent.

It is recommended that the interior support bag, floor, and base support baffles are used whenever it is possible to keep the tent interior dry and clean.

#### Using the ceiling hook as a lifeline

The ceiling hook attachment is designed to be used in 2 phases. In use it is generally over your changing room's support area. There are many commercial products for protection that can be used (without the hook) hanging from the roof hook as long as the interior is protected.

Make sure that you have positioned the ceiling hook as a place where you can see the support area from the interior's support.
