The NYPD's First Fifty Years Bernard Whalen, Jon Whalen, 2014. The New York Police Department is an iconic symbol of one of the world's most famous cities. The blue uniforms of the men and women who serve on the force have long stood for integrity and heroism in the work to serve and protect the city's residents. And yet, as in any large public organization, the NYPD has also suffered its share of corruption, political shenanigans, and questionable leadership. In *The NYPD's First Fifty Years*, Bernard Whalen himself, a long-serving NYPD lieutenant, and his father Jon, consider the men and women who have contributed to the department's past, both positively and less so. Starting with the official formation of the NYPD in 1898, they examine the commissioners, politicians, and patrolmen who during the next fifty years left a lasting mark on history and on one another. In the process, they also explore the backroom dealings, the hidden history, and the relationships that set the scene for the modern NYPD that so proudly serves the city today.

Routledge International Handbook of Critical Gang Studies David Brotherton, Rafael Gude, 2021-07-28. *Routledge International Handbook of Critical Gang Studies* is rooted in the instability, inequality, and liquidity of the post-industrial era. It understands the gang as a complex and contradictory phenomenon, a socio-historical agent that reflects, responds to, and creates a certain structured environment in spaces which are always in flux. International in scope and drawing on a range of sociological, criminological, and anthropological traditions, it looks beyond pathological, ahistorical, and non-transformative approaches and considers other important factors that produce the phenomenon: whether the historically entrenched racialized power structure and segregation in Chicago, the unconstrained state, abandoned development of favelas in Brazil, or the colonization, displacement, and dependency of people in Central America. This handbook reflects and defines the new theoretical and empirical traditions of critical gang studies. It offers a variety of perspectives, including: A view of gangs that takes into consideration the global context and appearance of the gang in its various forms and stages of development; An appreciation of the gang as a socio-cultural formation; A race, ethnic, and class analysis of the gang that problematizes domain assumptions such as the underclass; Gender variations of the gang phenomenon with a particular emphasis on their intersectional properties; Relations

between gangs and the political economy that address the dominant mode of production and exchange Treatments that demonstrate the historically contingent nature of gangs and their changes across time The contradictory impact of gang repressive policies institutions and practices as part of a broader discussion on the nature of the state in specific societies and Critical methodologies on gangs that involve discussions of visual and textual representations and the problematics of data collection and analysis Authoritative multi disciplinary and international this book will be of interest to criminologists sociologists and anthropologists alike particularly those engaged with critical criminology sociology youth crime delinquency and global social inequality The Handbook will also be of interest to policy makers and those in the peacebuilding field
