International Perspectives on Older Adult Social Isolation and Loneliness Ted K. S. Ng, Roger O'Sullivan, Lenard Kaye, James Lubben, Mercedes Bern-Klug, Matthew Lee Smith, 2025-05-06 Frontiers in Public Health is excited to announce a Research Topic with the theme International Perspectives on Older Adult Social Isolation and Loneliness This collection aims to address the urgent public health challenge posed by the escalating levels of isolation loneliness and disconnection experienced by older adults The influence of physical environmental social psychological cultural and economic forces on late life relationships and connectedness will be explored by an international roster of researchers and practice scholars The perspectives of theorists educators administrators public health officials clinicians and program planners will all be included to ensure arriving at a more nuanced appreciation of what has been proclaimed as one of the greatest public health challenges of our day Arriving at a greater understanding of the conditions that put elders at risk of becoming socially isolated and lonely the extent to which it should be considered both a personal community and societal threat the impact of COVID 19 those at greatest risk its negative consequences and steps that can be taken to prevent reduce and reverse its occurrence Ultimately this Research Topic intends to help readers more thoroughly understand the underlying causes as well as effective programmatic strategies for bolstering older adult social and emotional health and community engagement across diverse cultures social systems and cohorts This Research Topic will represent some of the most current theoretical programmatic and clinical research from around the world inquiring into the growing fragility of late life relationships and

the accompanying feelings of disengagement From multiple disciplinary and professional perspectives this Research Topic will serve to document our current understanding of the complexities surrounding the negative impacts of weakened relational ties on older adult safety health and well being Additionally it will showcase some of the most promising programs and interventive techniques that show the greatest promise in helping to repair and maintain the integrity of an older adult s social and community network and support system Submission topics may include but are not limited to theoretical frameworks and conceptual models of social isolation and loneliness in older adults epidemiological and prevalence analyses of social isolation and loneliness among diverse populations of older adults the emotional behavioural physical environmental and social determinants that contribute to the risk for and prevalence of elder isolation and or loneliness impacts of social isolation and loneliness on older adult health safety cognition life satisfaction and well being innovative programs and interventions aimed at preventing and or reducing social isolation and loneliness multidisciplinary approaches to addressing social isolation and loneliness in older adult populations policy and community based initiatives to promote social connectedness and engagement the influence of the COVID 19 pandemic on elder isolation and loneliness technological advancements and their role in potentially increasing and conversely mitigating social isolation and loneliness among older adults

MEDINFO 2021: One World, One Health – Global Partnership for Digital Innovation Paula Otero, Philip Scott, Susan Z. Martin, 2022-08-15 The World Health Organization defines health as a state of complete physical mental and social well being and not merely the absence of disease or infirmity and its constitution also asserts that health for all people is dependent on the fullest co operation of individuals and States The ongoing pandemic has highlighted the power of both healthy and unhealthy information so while healthcare and public health services have depended upon timely and accurate data and continually updated knowledge social media has shown how unhealthy misinformation can be spread and amplified reinforcing existing prejudices conspiracy theories and political biases This book presents the proceedings of MedInfo 2021 the 18th World Congress of Medical and Health Informatics held as a virtual event from 2 4 October 2021 with pre recorded presentations for all accepted submissions The theme of the conference was One World One Health Global Partnership for Digital Innovation and submissions were requested under 5 themes information and knowledge management quality safety and outcomes health data science human organizational and social aspects and global health informatics The Programme Committee received 352 submissions from 41 countries across all IMIA regions and 147 full papers 60 student papers and 79 posters were accepted for presentation after review and are included in these proceedings Providing an overview of current work in the field over a wide range of disciplines the book will be of interest to all those whose work involves some aspect of medical or health informatics
