Diversity and Inclusion on Campus Rachelle Winkle-Wagner, Angela M. Locks, 2019-10-21 This new and updated second edition of *Diversity and Inclusion on Campus* Supporting Students of Color in Higher Education provides an exploration of the range of college experiences from gaining access to higher education to successfully persisting through degree programs. By bridging research theory and practice related to the ways that peers, faculty, administrators, staff, and institutions can and do influence racially and ethnically diverse students' experiences, Winkle-Wagner and Locks examine how and why it is imperative to have an understanding of the issues that affect students of color in higher education. This new edition also includes features such as new case studies and examples throughout that allow readers to take institutional level and student level approaches to the chapter topics. Updated citations and theory across chapters. New topical coverage including discussion of college affordability, an exploration of a variety of institution types and the role of merit in maintaining and perpetuating racial inequality in higher education. End of chapter questions that encourage readers to explore chapter concepts in more detail. This second edition is an invaluable resource for future and current higher education and student affairs practitioners working towards full inclusion and participation for students of color in higher education. **Border Security, 2015** United States. Congress. Senate. Committee on Homeland Security and Governmental Affairs, 2016

Education under Siege Mortimore, Peter, 2013-09-23 At a time when education is considered crucial to a country's economic success recent UK governments have insisted their reforms are the only way to make England's system world class Yet pupils are tested rather than educated teachers bullied rather than trusted and parents cast as winners or losers in a gamble for school places *Education under siege* considers the English education system as it is and as it might be In a highly accessible style Peter Mortimore an author with wide experience of the education sector both in the UK and abroad identifies the current system's strengths and weaknesses He concludes that England has some of the best teachers in the world but one of the most muddled systems Challenging the government's view that there is no alternative he proposes radical changes to help all schools become good schools They include a system of schools receiving a fair balance of pupils who learn easily and those who do not ensuring a more even spread of effective teachers as well as banning league tables outlawing selection opening up faith schools and integrating private schools into the state system In the final chapter he asks readers who share his concerns to demand that the politicians alter course The book will appeal to parents education students and teachers as well as everyone interested in the future education of our children
