The New Shop Class Joan Horvath, Richard Cameron, Doug Adrianson, 2015-05-11 The New Shop Class connects the worlds of the maker and hacker with that of the scientist and engineer If you are a parent or educator or a budding maker yourself and you feel overwhelmed with all of the possible technologies this book will get you started with clear discussions of what open source technologies like 3D printers Arduinos robots and wearable tech can really do in the right hands Written by real rocket scientist Joan Horvath author of Mastering 3D Printing and 3D printing expert Rich Cameron AKA whosawhatsis The New Shop Class is a friendly down to earth chat about how hands on making things can lead to a science career Get practical suggestions about how to use technologies like 3D printing Arduino and simple electronics Learn how to stay a step ahead of the young makers in your life and how to

encourage them in maker activities Discover how engineers and scientists got their start and how their mindsets mirror that of the maker **More Everyday Science Mysteries: Stories for Inquiry-Based Science Teaching** Richard Konicek-Moran, 2009-04 Through 15 mystery stories this book memorably illustrates science concepts for students and reinforces the value of learning science through inquiry Each mystery presents opportunities for students to create questions form hypotheses test their ideas and come up with explanations Focused on concepts such as periodic motion thermodynamics temperature and energy and sound these mysteries draw students into the stories by grounding them in experiences students are familiar with providing them with a foundation for classroom discussion and inquiry

Transforming Our Image, Building Our Brand Valerie J. Gross, 2012-11-08 This book describes a groundbreaking concept that enables public libraries and librarians to become indispensable by following a Three Pillars educational approach and by replacing traditional terms with powerful intuitive value enhanced terminology that everyone understands While there is no question that what librarians and library professionals do is critically important the ways in which these roles and responsibilities are described can mean the difference between being valued as essential to the community or considered optional Something as simple as a choice of words can determine what is valued and consequently what gets funded and what gets canceled Transforming Our Image Building Our Brand The Education Advantage examines how the Three Pillars approach harnesses the power of language to enhance respect generate increased perceived value and garner funding The power stems from positioning all that library professionals do under three easy to remember pillars and replacing typical library terms and phrases with bold value enhanced terminology that commands value language that people outside of the field can immediately understand This book is essential reading for public library staff members at all levels of the organization especially those in leadership roles and its root concepts are applicable for all other library types as well
