The image shows the internal wiring of an RV power converter. A green printed circuit board (PCB) is mounted inside a dark metal enclosure. The PCB is populated with various electronic components, including several blue integrated circuits, red electrolytic capacitors, and a vertical strip of silver terminal blocks. Numerous white wires are connected to these terminal blocks and other components on the board. A large black heat sink is visible in the lower-left corner of the enclosure. The entire unit is mounted on a wooden surface.
