Pfizer Annual Report And Mission Statement:

The Analysis and Use of Financial Statements Gerald I. White, Ashwin Paul C. Sondhi, Dov Fried, 2002-12-30 Accounting Standards US and International have been updated to reflect the latest pronouncements An increased international focus with more coverage of IASB and non US GAAPs and more non US examples **The Legend of Pfizer** Jeffrey L. Rodengen, 1999 Founded as a small fine chemicals manufacturer in 1849 Pfizer has established itself as one of the most innovative healthcare companies in the world Using its famous fermentation process Pfizer was able to mass produce the wonder drug penicillin during World War II and save thousands of Allied lives Today with revenues topping 11 billion Pfizer's drug pipeline is the envy of competitors and its animal products are the world standard The company nears its 150th year in business intent on becoming the world's largest pharmaceutical company Illustrated with images from the Civil War to present day The Legend of Pfizer tells the story of a company that has become an integral part of our lives Individually boxed

The Foreign Plaintiffs Bill United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Courts and Administrative Practice, 1989 Corporation Annual Reports to Shareholders, 1988 *A Healthcare Solution* Mark A. Vonderembse, David D. Dobrzykowski, 2016-10-14 The evidence is undeniable By any measure the US spends more on healthcare than any other country in the world yet its health outcomes as measure by longevity are in the bottom half among developed countries and its health related quality of life has remained constant or declined since 1998 In addition to high costs and lower than expected outcomes the healthcare delivery system is plagued by treatment delays as it can take weeks to see a specialist and many people have limited or no access to care Part of the challenge is that the healthcare delivery system is a large complex and sophisticated value creation chain Successfully changing this highly interconnected system is difficult and time consuming because the underlying problems are hard to comprehend the root causes are many the solution is unclear and the relationships among problems causes and solution are multifaceted To address these issues the book carefully explains the underlying problems examines their root causes using information data and logic and presents a comprehensive and integrated solution that addresses these causes These three steps are the methodological backbone of this book A solution depends on understanding and applying the principles of patient centered care PCC and resource management PCC puts patients supported by their primary care physicians back in the role as decision makers and depends on patients being responsible for their health including making good life style choices After all the best way to reduce healthcare costs and increase quality of life is to improve our health and wellness and as a result need less care In addition health insurance must be rethought and redesigned so it is less likely to lead to overuse For many people with health insurance the out of pocket cost of healthcare are small so healthcare decision making is often biased toward consumption Effective resource management means that healthcare providers must do a better job of acquiring and using resources in order to provide care quickly productively and correctly This means improving healthcare strategy and management

accelerating the use of information technology making drug costs affordable and fair reducing the incidence of malpractice and rebuilding the provider network In addition implementation is difficult because there are many participants in the healthcare delivery value chain such as physicians nurses and medical technicians as well as many provider organizations such as hospitals clinics physician offices and labs Further up the value chain there are pharmaceutical companies equipment providers and other suppliers These participants have diverse and sometimes conflicting goals but each must be willing to accept change and work in a coordinated manner to improve healthcare To overcome these problems strong national leadership is needed to get the attention and support from the people and organizations involved in healthcare and to make the comprehensive changes that will lower healthcare costs improve healthcare quality eliminate delays increase access and enhance patient satisfaction

Ablaufende Blockbuster-Patente als zentrale Herausforderung für die strategische Ausrichtung in Pharmakonzernen: Eine empirische Analyse ausgewählter Top-10 Pharmaunternehmen Sarah Franz, 2013 In den letzten Jahren haben sich sowohl in der deutschen als auch in der internationalen Presse Schlagzeilen über auslaufende Patente in der Pharmabranche welche die derzeitige Situation in der Pharmaindustrie widerspiegeln Blockbuster Medikamente stellen einen erheblichen Anteil am Gesamtumsatz der großen Pharmakonzerne Bei einer Vielzahl dieser Medikamente ist aber in jüngster Zeit das zugrundeliegende Patent abgelaufen oder dieses Ereignis steht kurz bevor Die dadurch auf den Markt strömenden Generika-Anbieter können das Medikament zu erheblich günstigeren Preisen anbieten und damit für gravierende Umsatzeinbrüche bei den Blockbuster Medikamenten sorgen Verschiebt wird dieser Zustand durch relativ schwache Forschungs- und Entwicklungs-F&E-Pipelines der jeweiligen Konzerne insbesondere in Hinblick auf Wirkstoffe die kurz vor der Marktzulassung stehen Die an Marktanteil verlierenden Blockbuster Medikamente können in der Folge meist nicht durch nachrückende Produkte ausgeglichen werden Die Konsequenz für die betroffenen Unternehmen sind Umsatzeinbrüche im Milliarden-Bereich Die vorliegende Untersuchung arbeitet diese Situation vor dem Hintergrund des ressourcenbasierten Strategieansatzes theoretisch auf um sie anschließend anhand ausgewählter Unternehmensbeispiele empirisch zu analysieren Einerseits sollen die betroffenen Unternehmen und Blockbuster Medikamente einer Tiefenanalyse unterzogen werden sodass Erfolgskriterien abgeleitet werden können Andererseits sollen die von den Konzernen gewählten Wachstumsstrategien angesichts der Bedrohung durch die ablaufenden Patente untersucht und miteinander verglichen werden Hierbei wird im Kontext der Inhouse Strategien besonderes Augenmerk auf die Entwicklung und Ausgestaltung der eigenen F&E Aktivitäten gelegt Hinsichtlich der Outhouse Strategien ist insbesondere die Betrachtung von M&A-Transaktionen sowie von Lizenzierungsaktivitäten von Interesse
