**The Instructional Leader's Guide to Informal Classroom Observations** Sally J. Zepeda, 2014-01-09 First published in 2008, Routledge is an imprint of Taylor & Francis, an informa company. *The English Classroom in the Computer Age* William Wresch, 1991 Written by middle school, high school, and college writing teachers, the 30 lesson plans collected in this book represent a mix of computer-based units for teaching writing. They cover many types of writing, from journalism to literary essays, fiction, and poetry, and many aspects of the writing process, from brainstorming for ideas to prewriting, warm-ups, electronic library research, revision, and desktop publishing. Most of the lessons in the book are adaptations of lessons used for years without computers; a small number of lesson plans in the book represent wholly new activities. The lessons in the book follow a set format designed to help readers quickly find out which activities are most appropriate for them and are divided into categories for students with little, moderate, or substantial computer experience. A directory of software and a list of contributors are attached. RS

*The Road to Romance and Ruin* Jon Lewis, 2013-12-04 This book analyses the teen film as the rare medium able to represent the otherwise chaotic and conflicting experience of youth. The author focuses on six major issues: alienation, deviance, and delinquency; sex and gender; the politics of consumption; the apolitics of youth; full rebellion and regression into nostalgia. Despite the many differences within the genre, this book sees all teen films as focused on a single social concern: the breakdown of traditional forms of authority: school, church, family. Working with the theories of such diverse scholars as Kenneth Keniston, Bruno Bettelheim, Erik Erikson, Theodor Adorno, Simon Frith, and Dick Hebdige, the author draws an innovative and flexible model of a cultural history of youth. Originally published in 1992.
