Rushing To Paradise:

Rushing to Paradise J. G. Ballard, 1996-04-15 The rise and fall of a cult leader After losing her medical license Dr Barbara Rafferty turns environmentalist to protest French nuclear testing in the Pacific The campaign attracts media attention money flows and she sets up a commune on an atoll an experiment which ends in bloodshed **The Empire's of J. G. Ballard** David Ian Paddy, 2015-08-25 J G Ballard once declared that the most truly alien planet is Earth and in his science fiction he abandoned the traditional imagery of rocket ships traveling to distant galaxies to address the otherworldliness of this world The Empires of J G Ballard is the first extensive study of Ballard s critical vision of nation and empire of the political geography of this planet Paddy examines how Ballard s self perceived status as an outsider and exile the Sheppertonian from Shanghai generated an outlook that celebrated worldliness and condemned parochialism This book brings to light how Ballard wrestled with notions of national identity and speculated upon the social and psychological implications of the post war transformation of older models of empire into new imperialisms of consumerism and globalization Presenting analyses of Ballard s full body of work with its tales of reverse colonization psychological imperialism the savagery of civilization estranged Englishmen abroad and at home and multinational communities built on crime The Empires of J G Ballard offers a fresh perspective on the fiction of J G Ballard The Empires of J G Ballard An Imagined Geography offers a sustained and highly convincing analysis of the imperial and post imperial histories and networks that shape and energise Ballard s fictional and non fictional writings To what extent can Ballard be considered an international writer What happens to our understanding of his post war science fictions when they are opened up to the language and logics of post colonialism And what creative and critical roles do the spectres of empire play in Ballard s visions of modernity Paddy follows these and other fascinating lines of enquiry in a study that is not only essential reading for Ballard students and scholars but for anyone interested in the intersections of modern and contemporary literature history and politics Jeanette Baxter Anglia Ruskin University Shanghai made my father Arriving in England after WW2 he was a person of the world who d witnessed extremes of human experience and remained the outsider observing life from his home in Shepperton 1930s Shanghai Paris of the East was a mix of international sophistication and violence unfettered capitalism and acute poverty American cars martinis and Coca Cola a place marked by death and war It had a profound influence on my father and his imagination Dr Paddy s fascinating book explores my father s fiction within an international context and offers a profound reading of a man who always kept his eyes and mind open to the world Fay Ballard *Rushing To Paradise* W B. Yeats, 1967 **A User's Guide to the Millennium** J. G. Ballard, 1997-04-15 A collection of novelist s non fiction writings spanning more than thirty years addresses topics including the arts science literature popular culture and his own life **Animalities** Michael Lundblad, 2017-05-24 New and cutting edge work in animality studies human animal studies and posthumanism Representations of animality continue to proliferate in various kinds of literary and cultural texts This

pioneering volume explores the critical interface between animal and animality studies marking out the terrain in relation to twentieth century literature and film The range of texts considered here is intentionally broad answering questions like how do contemporary writers such as Amitav Ghosh Terry Tempest Williams and Indra Sinha help us to think about not only animals but also humans as animals What kinds of creatures are being constructed by contemporary artists such as Patricia Piccinini Alexis Rockman and Michael Pestel How do animalities animate such diverse texts as the poetry of two women publishing under the name of aMichael Field or an early film by Thomas Edison depicting the electrocution of a circus elephant named Topsy Connecting these issues to fields as diverse as environmental studies and ecocriticism queer theory gender studies feminist theory illness and disability studies postcolonial theory and biopolitics the volume also raises further questions about disciplinarity itself while hoping to inspire further work beyond the human in future interdisciplinary scholarship

Key Features 10 provocative case studies focused on representations and discourses of animals and animality in twentieth and twenty first century literature art and film in English New work from both internationally renowned and emerging figures in the burgeoning fields of animality studies human animal studies and posthumanism suggesting innovative and significant new directions to explore

Broad introduction to the kinds of questions scholars in the humanities have considered in relation to animals and animality

The Inner Man John Baxter, 2011-09-08 An explosive and perceptive biography of the British novelist J G Ballard To many people J G Ballard will always be the schoolboy in Steven Spielberg's movie *Empire of the Sun* struggling to survive as an internee of the Japanese during World War II Others remember him as the author of *CRASH* a meditation on the eroticism of the automobile and the car crash which also became a film and a cause celebre for its frank depiction of a fetish which as this book reveals was no literary conceit but a lifelong preoccupation In this first biography John Baxter draws on an admiration of and acquaintance with Ballard that began when they were writers for the same 1960s science fiction magazines With the help of the few people whom he admitted to his often hermit like existence it illuminates the troubled reality behind the urbane and amiable facade of a man who was proud to describe himself as psychopathic

Too Much Sense William Boyd, 1994 A review of J G Ballard's work *Rushing to paradise* by William Boyd

Posthuman Subjectivity in the Novels of J.G. Ballard Carolyn Lau, 2023-07-28 This book proposes that Ballard's novels extrapolate the formation of a posthuman subjectivity that is centred around an affirmative understanding of what a human body can do This new subjectivity transforms constraints and prescribed desires into creative openings in a hyper mediated control society that conditions docile bodies through technology and consumerism Set in surrealist predicaments in postwar affluent Western societies Ballard's novels remind us of the fragile veneer of order in the familiar every day In these moments of crisis complacent characters are compelled to undergo a process of defamiliarisation and transformation of their understanding of the self and the body The ability to form new relationships with the unfamiliar is imperative to survival in a hostile environment Ballard delineates both the possibilities and obstacles of forming these

relationships In particular the author attributes the failure to do so to the irreconcilable contradictions of late capitalism

Let This Voice Be Heard Maurice Jackson, 2010-11-24 Anthony Benezet 1713 84 universally recognized by the leaders of the eighteenth century antislavery movement as its founder was born to a Huguenot family in Saint Quentin France As a boy Benezet moved to Holland England and in 1731 Philadelphia where he rose to prominence in the Quaker antislavery community In transforming Quaker antislavery sentiment into a broad based transatlantic movement Benezet translated ideas from diverse sources Enlightenment philosophy African travel narratives Quakerism practical life and the Bible into concrete action He founded the African Free School in Philadelphia and such future abolitionist leaders as Absalom Jones and James Forten studied at Benezet s school and spread his ideas to broad social groups At the same time Benezet s correspondents including Benjamin Franklin Benjamin Rush Abb Raynal Granville Sharp and John Wesley gave his ideas an audience in the highest intellectual and political circles In this wide ranging intellectual biography Maurice Jackson demonstrates how Benezet mediated Enlightenment political and social thought narratives of African life written by slave traders themselves and the ideas and experiences of ordinary people to create a new antislavery critique Benezet s use of travel narratives challenged proslavery arguments about an undifferentiated primitive African society Benezet s empirical evidence laid on the intellectual scaffolding provided by the writings of Hutcheson Wallace and Montesquieu had a profound influence from the high culture writings of the Marquis de Condorcet to the opinions of ordinary citizens When the great antislavery spokesmen Jacques Pierre Brissot in France and William Wilberforce in England rose to demand abolition of the slave trade they read into the record of the French National Assembly and the British Parliament extensive unattributed quotations from Benezet s writings a fitting tribute to the influence of his work [Annual Register of Book Values](#) Annual register of book values. Modern first editions, Clique Limited, The, 1996-12 [Islands Under Fire](#) Kevin McCarey, 2016-08-02 A portrait of an often overlooked part of America Puerto Rico and the Spanish Virgin Islands this is the little known story of how the U S government in particular the Navy almost destroyed a pristine coral reef to provide a target for gunners The author s true and humorous account of his role in this sometimes bizarre tale reveals how locals politicians and mariners came together to save a coral reef from certain destruction and how the need to protect the fragile marine environment can bring meaning and direction to anyone s life young or old The conservation efforts represent a perfect example of what highly motivated citizens and political leaders can achieve when taking action to protect what they love The author hired as captain of a small research vessel led the underwater search for evidence of the coral reef damage that would be used to convince the U S government to stop its bombardment of the island While he did not have a direct role in the legal activities of Washington DC his efforts to collect factual evidence that would be used by the lawyers proved to be of immeasurable importance His role enabled the Culebrans the residents of this tranquil island paradise to gather proof of the destruction which ultimately convinced everyone including President Nixon to stop the carnage This triumphant tale serves as an

Race and Revolution Gary B. Nash, 1990-12-01 The most profound crisis of conscience for white Americans at the end of the eighteenth century became their most tragic failure Race and Revolution is a trenchant study of the revolutionary generation's early efforts to right the apparent contradiction of slavery and of their ultimate compromises that not only left the institution intact but provided it with the protection of a vastly strengthened government after 1788 Reversing the conventional view that blames slavery on the South's social and economic structures Nash stresses the role of the northern states in the failure to abolish slavery It was northern racism and hypocrisy as much as southern intransigence that buttressed the peculiar institution Nash also shows how economic and cultural factors intertwined to result not in an apparently judicious decision of the new American nation but rather its most significant lost opportunity Race and Revolution describes the free black community's response to this failure of the revolution's promise its vigorous and articulate pleas for justice and the community's successes in building its own African American institutions within the hostile environment of early nineteenth century America Included with the text of Race and Revolution are nineteen rare and crucial documents letters pamphlets sermons and speeches which provide evidence for Nash's controversial and persuasive claims From the words of Anthony Benezet and Luther Martin to those of Absalom Jones and Caesar Sarter readers may judge the historical record for themselves In reality argues Nash the American Revolution represents the largest slave uprising in our history Race and Revolution is the compelling story of that failed quest for the promise of freedom

Told Rush Brett Babbitt, 2018-11-19 Why TOLD RUSH Ever wonder why people like me who claim paranormal abilities go public I think the number one reason is that we have proven to ourselves that there is something else out there that no one can fully explain My whole life is full of odd happenings but initially I was very secretive and tried to explain nothing Over the last few years I have developed an overwhelming urge to tell people or at least entertain them even though some of my experiences

are unexplainable Some photos have no provenance unless me talking to dead people in dreams is great provenance I risk facing complete ridicule but when I pass away and head toward the afterlife heaven and I speak to people involved in my book I can always say I did what you wanted me to do I was your dead person reporter and I hopefully was a janitor of the Wild West

Teach Me Dreams Mechal Sobel, 2021-04-13 One day in 1698 Robert Pyle of Pennsylvania decided to buy a black slave The next night he dreamed of a steep ladder to heaven that he felt he could not climb because he carried a black pot In the dream a man told him the ladder was the light of Jesus Christ and would bear any whose faith held strong otherwise the climber would fall Pyle woke that morning positive that he should eschew slaves and slavery having equated the pot with the slave he wished to buy In fact so acutely did this dream awaken him to his sins that he became a dynamic advocate of liberation This dream literally changed his outlook and his life Teach Me Dreams delves into the dream world of ordinary Americans and finds that as their self perception increased transforming them on a personal level so did a revolutionary spirit that wrought momentous political changes Mechal Sobel considers dreams recorded in the life narratives of 100 people revealing the America of the Revolutionary Era to have been a truly dream infused culture in which analysis of dreams was encouraged and subsequent personal reevaluation was striking Sobel uses a wealth of information letters diaries and over 200 published autobiographies from a wide range of ordinary people black white male female In these accounts many previously neglected by historians dreamers explain how their nighttime adventures opened their eyes to aspects of themselves or unveiled new paths they should take both personally and politically Such paths often led them to challenge those in power Charting the widely dreamed of opposition between blacks and whites men and women Sobel offers astounding new insights into how early Americans understood their lives Her analysis of the dreams and lives of ordinary Revolutionary Era people demonstrates links between dreaming self reevaluation and participation in the radically changing politics of the time This book will appeal to specialists in the fields of American and African American history and anyone interested in dreams and self development
