

GAS FURNACES

ACHIEVER® 90 PLUS® HIGH EFFICIENCY UPFLOW GAS FURNACES

The Ruud® 90 Plus High Efficiency line of upflow gas furnaces are designed for utility rooms, closets or alcoves. Because of the low-profile 34 inch height, the UGRA-model installed vertically can satisfy most applications that traditionally call for a horizontal furnace.

The design is certified by CSA.

Features

- Heat exchanger is constructed of all stainless steel for maximum corrosion resistance and thermal fatigue reliability.
- Low profile "34 inch" design is lighter and easier to handle and leaves room for optional accessories.
- Left or right side gas, electric, and condensate drainage connections on upflow models.
- Integrated control board manages all operational functions and provides hookups for humidifier and electronic air cleaner.
- An insulated blower compartment, a slow-opening gas valve and a specially designed inducer system make it one of the quietest furnaces on the market today.
- Pre-paint galvanized steel cabinet.
- Molded permanent filters.
- Optional indoor or outdoor combustion air. In addition, combustion air may be piped to either the top or side of the cabinet on all upflow models. A special molded fitting is provided to ease installation.
- Transformer and control fuse protection.
- Solid bottom is standard.
- Control board diagnostics.

A variety of cooling coils and plenums designed to use with the Achiever 90 Plus gas furnaces are available as optional accessories for air conditioning models.

13.1 FUE (Annual Fuel Utilization Efficiency) calculated in accordance with Department of Energy test procedures.
