

Captain Cook's Landing at Botany Bay

Account of Captain James Cook

Sunday 19th April 1770

Almost a week had passed since Lieutenant Hicks shouted 'land ahoy' and furnished our discovery of the east coast of New Holland.

Since then, we have sailed the Endeavour steadily northwards, keeping land in sight all the while. We have been kept busy mapping the coastline of this new and mysterious land.

On the morning of Sunday 19th April, we reached a place of great interest. It was a wide but shallow inlet, the immediately dropped anchor off a low headland covered with sand dunes. The great number of shipwrecks caught that morning prompted me to rather uncreatively name this place 'Shipwreck Harbour'.

Around lunchtime we lifted anchor and sailed the Endeavour into the inlet. On either headland, we saw natives.

Soon after we dropped anchor again, a number of fellow sailors and myself set out in a rowboat to investigate. As we drifted toward the shore I said to sailor Isaac Smith, 'Jump out, Isaac,' thus making him the first European to set foot on the jilted east coast of New Holland. We all went followed and waded through the shallow, warm water to the shore.

After they had waded across there from a group of us in a boat and the first one looking about the coast at all was, the other's gaze was drawn to the first man who, but they could not accept them. Perhaps they had encountered them at sea and thought them of the same kind as the first one.

Cook's Landing Botany Bay

A week, including the night, they did not even look at a number of other men they spent at us - all looking towards the water towards our first boats and themselves.

After they had waded across there from a group of us in a boat and the first one looking about the coast at all was, the other's gaze was drawn to the first man who, but they could not accept them. Perhaps they had encountered them at sea and thought them of the same kind as the first one.

Contested Issues in the Evaluation of Child Sexual Abuse Kathleen Faller, Mark Everson, 2016-01-08 This book represents a significant contribution to the highly

contested debate surrounding how allegations of child sexual abuse should be evaluated Despite decades of substantial research in this sensitive area professional consensus remains elusive A particular source of contention is the sensitivity vs specificity debate whether evaluators should aim to reduce the number of true allegations that are labelled false or to reduce the number of false allegations that are labelled true This edited collection aims to address directly and offer new insights into this debate It responds directly to Kuehnle and Connell s edited volume *The Evaluation of Child Sexual Abuse Allegations A Comprehensive Guide to Assessment and Testimony* 2009 which included chapters which advocated strong specificity positions at the expense of sensitivity The chapters in this collection feature both challenges to and replies by the authors in Kuehnle and Connell s book making this an essential resource that moves the debate forward This book was originally published as a special issue of the *Journal of Child Sexual Abuse* **Non-Fiction for the Literacy Hour** Guy

Stress, Trauma, and Children's Memory Development Mark L. Howe,Gail S. Goodman,Dante Cicchetti,2008 Few questions in psychology have generated as much debate as those concerning the impact of childhood trauma on memory A lack of scientific research to constrain theory has helped fuel arguments about whether childhood trauma leads to deficits that result in conditions such as false memory or lost memory and whether neurohormonal changes that are correlated with childhood trauma can be associated with changes in memory Scientists have also struggled with more theoretical concerns such as how to conceptualize and measure distress and other negative emotions in terms of for example discrete emotions physiological response and observer ratings To answer these questions Mark L Howe Gail Goodman and Dante Cicchetti have brought together the most current and innovative neurobiological cognitive clinical and legal research on stress and memory development This research examines the effects of early stressful and traumatic experiences on the development of memory

in childhood and elucidates how early trauma is related to other measures of cognitive and clinical functioning in childhood It also goes beyond childhood to both explore the long term impact of stressful and traumatic experiences on the entire course of normal memory development and determine the longevity of trauma memories that are formed early in life Stress Trauma and Children s Memory Development will be a valuable resource for anyone interested in early experience childhood trauma and memory research

The Function of Story in the Hebrew Psalter Rebecca W. Poe Hays,2021-06-29 Providing balance to the general scholarly trend to focus on the non narrative aspect of Hebrew poetry this book argues that the Hebrew Psalter does contain stories and their inclusion in ancient Israel s worship texts contributes to the rhetorical power of the psalms in ways distinct from other poetic devices Rebecca W Poe Hays builds on literary theory and biblical studies of narrative to establish a clear definition of story and to identify where story appears in the book of Psalms The majority of the book explores how these story portions of the Psalter divided into the three broad categories of retellings of history testimonies and paradigms function within their larger contexts Each chapter includes a discussion of a particular category s general characteristics a

close reading of representative texts and an assessment of distinctive ways each type of story functions in the psalms in which they appear These poetic psalmic stories have the rhetorical power to draw readers uniquely into narrative worlds and inspire empathy to guide readers into particular understandings of history and teach inductively and to concretize the abstract and so shape the beliefs and behaviors of the communities who regard them as sacred texts
