Professional Growth Plan

Professional Growth Plans help teachers focus on areas of professional development that will enable them to improve their practice. Teachers are accountable for the implementation and completion of the plan and may use the plan as a starting point for the school year. (The Professional Growth Plan is intended to be one academic year in duration and may support the goals of the Individual Professional Development Plan- IPDP. **The Professional Growth Plan is not intended to replace the IPDP.**) The professional growth plan and process includes feedback from the evaluator as well as the teacher's self-assessment, and the support needed to further the teacher's continuous growth and development. Professional development should be individualized to the needs of the teacher and students (based on available data), and specifically relate to the teacher's areas for growth as identified in the teacher's evaluation. The evaluator should recommend professional development opportunities, and support the teacher by providing resources (e.g., time, financial). The growth plan should be reflective of the data available and include:

- Identification of area(s) for future professional growth;
- Specific resources and opportunities to assist the teacher in enhancing skills, knowledge and practice;
- Outcomes that will enable the teacher to increase student learning and achievement.
