

Master of Social Work Personal Statement Sample

Something that bestows me with intense gratification in life is helping people around me. I want to make a visible difference in the life of people around me. This explains why I am applying for a Master's program in social work. A fulfilling career awaits me on the other side of an internationally recognized course. My conscious interactions with human beings fostered my career aspirations significantly. It fascinates me to be a part of these interactions, considering the society at large, and its corresponding needs. My interest in social care is intense, and I would like to turn my fascination into my career. Having been a part of several social help groups and NGOs, I have already set my foot towards a career that appeals the most to my intellect. I would like to streamline my profile with a specialized degree and serve the society at large.

Having completed my Bachelor's degree in Social Sciences, I would like to qualify as an accomplished social worker, undertaking the Master's program at this stage of my career. This would help me evolve as a caring and supportive person, ready to help the society. Over the years, I have gained significant insight on social workers as well as family work. Particularly, I had the opportunity to closely observe how caring foster parents are. It's amazing to note the hard work they carry out, taking care of such children. This happens to be the core area of my interest.

During my graduation, I gained significant knowledge of both psychology and sociology. Both these disciplines covered certain aspects of social work.
