MEETING NOTES

I met with the client for a 45-minute session. The client reported feeling better since our last session. They mentioned that they had been able to manage their anxiety better and were feeling more confident in social situations. The client also mentioned that they had been able to sleep better and were feeling more energized. We discussed the client's progress and the effectiveness of the interventions used. The client expressed a positive attitude towards continuing the therapy and was able to identify areas for improvement. We agreed to meet again in two weeks to review the client's progress and adjust the treatment plan as needed.
