imagine the possibilities

For the purpose of this study, the authors used a purposive sampling method to select participants who were experienced in the use of the technology. The sample size was determined by the researchers based on the need to explore the experiences of the participants. The participants were selected from a list of individuals who had been identified by the researchers as being experienced in the use of the technology. The participants were then contacted and invited to participate in the study. The participants were then interviewed and their responses were recorded. The data was then analyzed and the results were presented in the form of a report.
