Embedding Questions National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Committee on Embedding Common Test Items in State and District Assessments, 1999-11-17 Policy makers are caught between two powerful forces in relation to testing in America's schools One is increased interest on the part of educators reinforced by federal requirements in developing tests that accurately reflect local educational standards and goals The other is a strong push to gather information about the performance of students and schools relative to national and international standards and norms The difficulty of achieving these two goals simultaneously is exacerbated by both the long standing American tradition of local control of education and the growing public sentiment that students already take enough tests Finding a solution to this dilemma has been the focus of numerous debates surrounding the Voluntary National Tests proposed by President Clinton in his 1997 State of the Union address It was also the topic of a congressionally mandated 1998 National Research Council report Uncommon Measures Equivalence and Linkage Among Educational Tests and was touched upon in a U S General Accounting Office report Student Testing Issues Related to Voluntary National Mathematics and Reading Tests More recently Congress asked the National Research Council to determine the technical feasibility validity and reliability of embedding test items from the National Assessment of Educational Progress or other tests in state and district assessments in 4th grade reading and 8th grade mathematics for the purpose of developing a valid measure of student achievement within states and districts and in terms of national performance standards or scales This report is the response to that congressional mandate

Unconventional, Partisan, and Polarizing Rhetoric Jeanine E. Kraybill, 2017-11-14 The rhetoric and political communication of the 2016 Presidential Election was arguably unconventional partisan and polarizing becoming a defining characteristic of the tone and feel of the campaign In this volume we examine how rhetoric and various political communication strategies influenced and shaped the contours of the election and ultimately its outcome Witnessing the most diverse electorate in U S political history we look at how voters were primed for an anti establishment outsider candidate and how various rhetorical and communication appeals were used to strategically engage different groups of voters and at times leave out or even scapegoat others We also analyze how rhetoric and political communication shaped the debate on key issues such as climate change immigration national security gender and representation In an age where having a social media presence is an essential campaign tool we examine

how Twitter was used by candidates and its impact on the electorate and news coverage Overall we demonstrate that political rhetoric and communication is impactful bearing electoral consequences and the potential for policy outcomes giving the reader much to consider as we approach the next midterm and general election *Contact Lenses in Ophthalmic Practice* Mark J. Mannis, Karla Zadnik, Cleusa Coral-Ghanem, Newton Kara-José, 2006-05-11 Even with the advances in intraocular lens technology and the growing diversity of refractive surgery techniques the role of contact lenses in ophthalmic practice has only increased This is due in part to the great strides in materials technology expanding applications both refractive and therapeutic for contact lenses and the clear recognition that contact lenses will always be an important tool for the ophthalmologist With the fitting of contact lenses as a medical art requiring a thorough understanding of anatomy physiology and optics of the eye this practice is formulaic only in part The rest of contact lens practice requires sound medical judgment and decision making that comes only with hands on experience The authors address this need by starting with a didactic approach that incorporates frequently asked questions and straightforward answers so that the ophthalmology resident intermediate contact lens practitioner and optometrist will find this to be an indispensable resource
