

Teacher Name: Mrs. Jill Demerjian Grade level: 6th Grade
School: Mission Dolores School Subject: Mathematics

Differentiated Instruction Lesson Plan

Learning Goals or Standards to be addressed:

CA Standard 6th Grade Mathematics

Number Sense 2.0 Students Calculate & Solve Problems Involving Multiplication & Division of Fractions (just a small part of this large standard)

K Students will know: the steps to divide and multiply fractions/mixed numbers

U Students will understand: when and why they would multiply or divide in a particular situation (makes learning meaningful to students)

D Students will be able to: solve problems by multiplying and dividing fractions/mixed numbers. In addition, students will be able to explain the difference between dividing and multiplying fractions (skills, actions, performance)

Think about the students for whom you are planning this lesson. What kind of differentiation best meets their needs? Readiness? Interest? Learning Profile? _____

Differentiation strategy (process, content, product) or Environment	Grouping Strategy
<p>*Using Multiple Differentiation Strategies = Activities That Are More Interesting & Engaging</p> <p>All strategies are utilized in this particular lesson</p> <p><u>Process:</u> Address types of learning modalities</p> <ul style="list-style-type: none">- Kinesthetic, Visual, Auditory <p><u>Content:</u> Complexity of thinking skills required</p> <p><u>Product:</u> Different ways to show understanding based on ability and learning profile.</p> <p><u>Environment:</u> Location, noise level, sitting vs. standing</p>	<p><u>Groups Based Upon:</u></p> <p>#1 Readiness</p> <p>#2 Learning Profile</p> <p>#3 Group Dynamic</p> <p>*Flexible Grouping Utilized</p>

Sample Lesson Plans Differentiated Instruction

Patrick Vollmar

Sample Lesson Plans Differentiated Instruction:

Better Learning Through Structured Teaching: A Framework for the Gradual Release of Responsibility Doug Fisher,Nancy Frey,2010-09-10 Better Learning Through Structured Teaching describes how teachers can help students develop stronger learning skills by ensuring that instruction moves from modeling and guided practice situations where the teacher has most of the responsibility to collaborative learning and finally to independent tasks You ll find out how to use the four components of this approach to help meet critical challenges including differentiating instruction and making effective use of class time 1 Focus Lessons Establishing the lesson s purpose and then modeling your own thinking for students 2 Guided Instruction Working with small groups of students who have similar results on performance assessments 3 Collaborative Learning Enabling students to discuss and negotiate with one another to create independent work not simply one project 4 Independent Tasks Requiring students to use their previous knowledge to create new and authentic products

The authors explore each component using student dialogues and examples from a variety of disciplines and grade levels. They provide tips and tools for successfully implementing this instructional approach in your own classroom including checklists for classroom setup and routines, critical questions, real world lesson plans, and more. No matter what grade level you teach, *Better Learning Through Structured Teaching* is your essential guide to helping students develop and expand their capacity for authentic and long-lasting learning. *Common Core Curriculum Maps in English Language Arts, Grades K-5* Great Minds, 2011-10-19. The first books to present specific guidance for teaching the Common Core State Standards, forty-three states plus the District of Columbia and the U.S. Virgin Islands have signed on to adopt the Common Core State Standards (CCSS). The need for curriculum guides to assist teachers in helping students meet these standards has become imperative. Created by teachers for teachers, the research-based curriculum maps in this book present a comprehensive, coherent sequence of thematic units for teaching the skills outlined in the CCSS for English language arts in Grades K-5. The maps address every standard in the CCSS yet are flexible and adaptable to accommodate diverse teaching styles. Each grade is broken down into six units that include focus standards, suggested works, sample activities and assessments, lesson plans, and more. Teachers can use the maps to plan their year and craft their own more detailed lesson plans. Any teacher, school, or district that chooses to follow the Common Core maps can be confident that they are adhering to the standards.

Differentiation Rick Wormeli, 2023-10-10. *Differentiation: From Planning to Practice*. author Rick Wormeli provides an overview of the cognitive science behind differentiation. As a teacher, you know a one-size-fits-all education doesn't work; students are more diverse than ever. In his book, Wormeli gives a step-by-step process to create a fully crafted differentiation lesson and shows the necessary planning for an effective lesson design for diverse classrooms. Wormeli demonstrates how to weave common and novel differentiation strategies into all subjects and offers clear advice about what to do when things don't go as expected. Based on nearly thirty years of experience as a teacher and instructional coach, his thoughtful and imaginative classroom accommodations will help teachers succeed with advanced students, struggling students, English language learners, and students across the multiple intelligences spectrum. *Differentiation* provides a practice guide to create lessons that will prepare students for real-life success and build their critical thinking skills in the process. *Teaching and Learning* Marjorie S. Schiering, Drew Bogner, Jorun Buli-Holmberg, 2011-06-16. Learners are multi-faceted, unique people. Discovering the whole individual is incumbent upon realizing the teaching/learning environments, common social and societal realities, and belief and value systems, respective of academic and socio-societal factors that establish who one is as a learner and teacher. In *Learning and Teaching*, the authors offer practical strategies for interactive instruction to facilitate optimum learning. This book addresses the theoretical framework that includes the relationship between thoughts and feelings, the effect of past experiences on present and future behaviors, universal connectivity, and a strong understanding of who one is as a teacher and learner. *Becoming a Metacognitive Teacher* Roya Q. Scales, Thomas DeVere Wolsey, Seth A. Parsons, 2020.

This is a practical resource for teacher candidates and early career teachers The purpose of this book is to provide support for individuals as they journey toward becoming teachers Excellent teaching is based upon professional judgment that is acquired through sound teacher preparation scaffolded teaching experiences to apply newly acquired pedagogical knowledge in the classroom as teacher candidates and initial teaching experiences that are supported by induction programs **Making Differentiation a Habit** Diane Heacox, 2018-04-18 Updated edition of a popular resource helps teachers seamlessly integrate differentiation practices into their daily routine In this updated edition of her guide to daily differentiated instruction Diane Heacox outlines the critical elements for success in today's classrooms She gives educators evidence-based differentiation strategies and user-friendly tools to optimize teaching learning and assessment for all students New features include an expanded section on grading information on connections between personalized learning and differentiation integration of strategies with tier one instructional interventions scaffolding strategies revised planning templates and updated resources which include digital tools and apps for assessment Digital content includes customizable forms from the book A free downloadable PLC Book Study Guide is available at freespirt.com PLC **Teaching Mathematics in Grades 6 - 12** Randall E. Groth, 2012-08-10 A journey into the vibrant and intriguing world of mathematics education Teaching Mathematics in Grades 6-12 explores how research in mathematics education can inform teaching practice in grades 6-12 The author shows secondary mathematics teachers the value of being a researcher in the classroom by constantly experimenting with methods for developing students' mathematical thinking and then connecting this research to practices that enhance students' understanding of the material The chapters in Part I introduce secondary teachers to the field of mathematics education with cross-cutting issues that apply to teaching and learning in all mathematics content areas The chapters in Part II are devoted to specific mathematics content strands and describe how students think about mathematical concepts The goal of the text is to have secondary math teachers gain a deeper understanding of the types of mathematical knowledge their students bring to grade 6-12 classrooms and how students' thinking may develop in response to different teaching strategies **Teaching the Male Brain** Abigail Norfleet James, 2015-02-18 Unlock the potential of every boy Help the boys in your school and in your life succeed beyond anyone's expectations even their own Updated with the latest research in neuroscience and developmental psychology this bestselling guide translates theory into tested and refined strategies that are ready to be put to work immediately Features include A discussion of cognitive gender differences and how they relate to education An analysis of the benefits and challenges of single sex classrooms Tried and true techniques for differentiating learning in co-ed classrooms Cutting edge strategies for reaching boys with ADHD learning disabilities social and emotional differences and more Detailed case studies and real life dilemmas
