Writing Through the Tween Years Bruce Morgan, Deb Odom, 2005 It s not easy being a tween A lot of us are either in a tunnel or a bridge A lot of us don t know who we are Instead of following Barney s advice we end up doing what popstars do Kelley age 10 No longer little children but not yet teenagers tweens are beginning to see themselves as autonomous while still struggling to understand where they fit in It can also be an awkward time for teachers who cherish the hilarious and poignant personalities of tween writers but feel pressured by a new emphasis on testing in the intermediate grades Many teachers have virtually abandoned writers workshops in favor of formula writing and prompts even though these workshops may be essential for understanding the emerging competencies and personalities of eight to twelve year olds Bruce Morgan and Deb Odom teach together at a school where formula writing and test preparation led to stagnant writing scores student boredom and teacher discouragement They worked with their colleagues in grades 3-6 to make some dramatic changes in their collective writing instruction These changes included a return to their roots as writing workshop teachers but with new twists The teaching staff drew up new common standards for writing assessment and achievement The revised writing programs also involved integrating insights from reading strategy instruction with a renewed emphasis on the basics of writers workshop student choice teacher modeling revision and using quality children s literature as mentor text Writing Through the Tween Years documents how teachers can get back to the joys of teaching writing in a literature rich thoughtful environment There may be no better way to understand and reach tween writers **Kid Writing** Eileen G. Feldgus, Isabell Cardonick, 2002-01-28 Turn children who don t know the alphabet into fluent proficient and confident writers Kid Writing invites you into classrooms that integrate phonics instruction across the curriculum and throughout the school day Kindergartners through second graders as well as preschoolers second language learners and special education students flourish in this program Once you ve witnessed the success of this approach and have seen the techniques you ll be ready to try it yourself 192 pages **How to Write an Essay, Grades 6-8** Gabriel Arquilevich, 1999-10 The purpose of this book is to

teach students how to write a five paragraph essay and to demonstrate the creativity and fun involved in essay writing
