Buschmann, 2023-07 Hoarding New Guinea provides a new cultural history of colonialism that pays close attention to the millions of Indigenous artifacts that serve as witnesses to Europe's colonial past in ethnographic museums Rainer F. Buschmann investigates the roughly two hundred thousand artifacts extracted from the colony of German New Guinea from 1870 to 1920 Reversing the typical trajectories that place ethnographic museums at the center of the analysis he concludes that museum interests in material culture alone cannot account for the large quantities of extracted artifacts Buschmann moves beyond the easy definition of artifacts as trophies of colonial defeat or religious conversion instead employing the term hoarding to describe the irrational amassing of Indigenous artifacts by European colonial residents Buschmann also highlights Indigenous material culture as a bargaining chip for its producers to engage with the imposed colonial regime In addition by centering an area of collection rather than an institution he opens new areas of investigation that include non professional ethnographic collectors and a sustained rather than superficial consideration of Indigenous peoples as producers behind the material culture Hoarding New Guinea answers the call for a more significant historical focus on colonial ethnographic collections in European museums **My Hand Will Write what My Heart Dictates** Frances Porter, Charlotte Macdonald, Tui MacDonald, 1996 The women of this book are mainly Pakeha They are domestic servants governors wives and farmers married single widowed or deserted They write about love friendship children destitution illness and grief Maori women write about land loss and love about families and domestic events in both Maori and English The History Teacher , 1975 *In the Eye of All Trade* Michael J. Jarvis, 2012-12-01 In an exploration of the oceanic connections of

the Atlantic world Michael J Jarvis recovers a mariner's view of early America as seen through the eyes of Bermuda's seafarers The first social history of eighteenth century Bermuda this book profiles how one especially intensive maritime community capitalized on its position in the eye of all trade Jarvis takes readers aboard small Bermudian sloops and follows white and enslaved sailors as they shuttled cargoes between ports raked salt harvested timber salvaged shipwrecks hunted whales captured prizes and smuggled contraband in an expansive maritime sphere spanning Great Britain's North American and Caribbean colonies In doing so he shows how humble sailors and seafaring slaves operating small family owned vessels were significant but underappreciated agents of Atlantic integration The American Revolution starkly revealed the extent of British America's integration before 1775 as it shattered interregional links that Bermudians had helped to forge Reliant on North America for food and customers Bermudians faced disaster at the conflict's start A bold act of treason enabled islanders to continue trade with their rebellious neighbors and helped them to survive and even prosper in an Atlantic world at war Ultimately however the creation of the United States ended Bermuda's economic independence and doomed the island's maritime economy

Making Men in Ghana Stephan Miescher, 2005 By featuring the life histories of eight senior men *Making Men in Ghana* explores the changing meaning of becoming a man in modern Africa Stephan F Miescher concentrates on the ideals and expectations that formed around men who were prominent in their communities when Ghana became an independent nation Miescher shows how they negotiated complex social and economic transformations and how they dealt with their mounting obligations and responsibilities as leaders in their kinship groups churches and schools Not only were notions about men and masculinity shaped by community standards but they were strongly influenced by imported standards that came from missionaries and other colonial officials As he recounts the life histories of these men Miescher reveals that the passage to manhood and a position of power seniority authority and leadership was not always welcome or easy As an important foil for studies on women and femininity this groundbreaking book not only explores masculinity and ideals of male behavior but offers a fresh perspective on African men in a century of change

Nahuatl Nations Magnus Pharo Hansen, 2024-08-09 *Nahuatl Nations* is a linguistic ethnography that explores the political relations between those Indigenous communities of Mexico that speak the Nahuatl language and the Mexican Nation that claims it as an important national symbol Author Magnus Pharo Hansen studies how this relation has been shaped by history and how it plays out today in Indigenous Nahua towns regions

and educational institutions and in the Mexican diaspora He argues that Indigenous languages are likely to remain vital as long as they used as languages of political community and they also protect the community's sovereignty by functioning as a barrier that restricts access to the participation for outsiders Semiotic sovereignty therefore becomes a key concept for understanding how Indigenous communities can maintain both their political and linguistic vitality While the Mexican Nation seeks to expropriate Indigenous semiotic resources in order to improve its brand on an international marketplace Indigenous communities may employ them in resistance to state domination

Hunting the Gatherers

Michael O'Hanlon,Robert L. Welsch,2001-01-01 Between the 1870s and the 1930s competing European powers carved out and consolidated colonies in Melanesia the most culturally diverse region of the world As part of this process great assemblages of ethnographic artefacts were made by a range of collectors whose diversity is captured in this volume The contributors to this tightly integrated volume take these collectors and the collecting institutions as the departure point for accounts that look back at the artefact producing societies and their interaction with

the collectors but also forward to the fate of the collections in metropolitan museums as the artefacts have been variously exhibited neglected re conceived as indigenous heritage or repatriated In doing this the contributors raise issues of current interest in anthropology Pacific history art history museology and material culture Haig's Intelligence Jim Beach,2013-10-24 Haig s Intelligence is an important study of Douglas Haig s controversial command during the First World War Based on extensive new research it addresses a perennial question about the British army on the Western Front between 1916 and 1918 why did they think they were winning Jim Beach reveals how the British perceived the German army through a study of the development of the British intelligence system its personnel and the ways in which intelligence was gathered He also examines how intelligence shaped strategy and operations by exploring the influence of intelligence in creating perceptions of the enemy He shows for the first time exactly what the British knew about their opponent when and how and in so doing sheds significant new light on continuing controversies about the British army s conduct of operations in France and Belgium and the relationship between Haig and his chief intelligence officer John Charteris British and Colonial Printer and Stationer ,1912 The Victorian Clergy Alan Haig,2016-07-01 First published in 1984 The Victorian clergy occupied a uniquely prominent position in English society Their church generated continual and often rancorous debate and they played an important part in the local provision of education welfare and justice Politically also they were never negligible But while in 1830 the clergy still constituted England s largest and wealthiest professional body by 1914 their position was increasingly marginal This title examines these changes and the issues in which the clergy was facing during this transition The Victorian Clergy will be of particular interest to students of history *The Complete Writings and Selected Correspondence of John Dickinson* John Dickinson,2020-06-10 The Complete Writings and Selected Correspondence of John Dickinson vol 1 inaugurates a multivolume documentary edition that will for the first time ever provide the complete collection of everything Dickinson published on public affairs over the course of his life The documents include essays articles broadsides resolutions petitions declarations constitutions regulations legislation proclamations songs and odes Among them are many of the seminal state papers produced by the first national congresses and conventions Also included are correspondences between Dickinson and some of the key figures of his era This edition should raise Dickinson to his rightful place among America s founding fathers rivaled in reputation only by Benjamin Franklin before 1776 Dickinson was celebrated throughout the colonies as well as in England and France as the great American spokesman for liberty and the documents in this edition evidence his tireless political work and unmatched corpus Distributed for the University of Delaware Press **Schools for Statesmen** Andrew H. Browning,2022-06-16 Whatever Principles are imbibed at College will run thro a Man s whole future Conduct William Livingston signer of the Constitution Schools for Statesmen explores the fifty five individual Framers of the Constitution in close detail and argues that their different educations help explain their divergent positions at the 1787 Constitutional Convention Those educations ranged from outlawed Irish hedge schools to

England's venerable Inns of Court from the grammar schools of New England to ambitious new academies springing up on the Carolina frontier. The more traditional schools that focused on Greek and Latin classics—Oxford, Harvard, Yale, William and Mary—were deeply conservative institutions resistant to change. But the Scottish colleges and the newer American schools—Princeton, Philadelphia, King's College—introduced students to a Scottish Enlightenment curriculum that fostered more radical, forward-thinking leaders. Half of the Framers had no college education and were often self-taught or had private tutors; most were quiet at the convention, although a few stubbornly opposed the new ideas they were hearing. Nearly all the delegates who took the lead at the convention had been educated at the newer, innovative colleges, but of the seven who rejected the new Constitution, three had gone to the older traditional schools while three others had not gone to college at all. *Schools for Statesmen* is an unprecedented analysis of the sharply divergent educations of the Framers of the Constitution. It reveals the ways in which the Constitutional Convention, rather than being a counterrevolution by conservative elites, was dominated by forward-thinking innovators who had benefited from the educational revolution beginning in the mid-eighteenth century. Andrew Browning offers a new and persuasive explanation of key disagreements among the Framers and the process by which they were able to break through the impasse that threatened the convention; he provides a fresh understanding of the importance of education in what has been called the Critical Period of US history. *Schools for Statesmen* takes a deep dive into the diverse educational world of the eighteenth century and sheds new light on the origins of the US Constitution.

The Devil's Lane Catherine Clinton, Michele Gillespie, 1997-06-26 When Europeans settled in the early South, they quarreled over many things, but few imbroglios were so fierce as battles over land. Landowners wrangled bitterly over boundaries with neighbors, and contested areas became known as the devil's lane. Violence and bloodshed were but some of the consequences to befall those who ventured into these disputed territories. *The Devil's Lane* highlights important new work on sexuality, race, and gender in the South from the seventeenth to the nineteenth centuries. Contributors explore legal history by examining race, crime, and punishment; sex across the color line; and slander. Emerging stars and established scholars such as Peter Wood and Carol Berkin weave together the fascinating story of competing agendas and clashing cultures on the southern frontier. One chapter focuses on a community's resistance to a hermaphrodite where the town court conducted a series of examinations to determine the individual's gender. Other pieces address topics ranging from resistance to sexual exploitation on the part of slave women to spousal murders, from interpreting women's expressions of religious ecstasy to a pastor's sermons about depraved sinners and graphic depictions of carnage, all in the name of exposing evil, and from a case of infanticide to the practice of state-mandated castration. Several of the authors pay close attention to the social and personal dynamics of interracial women's networks and relationships across place and time. *The Devil's Lane* illuminates early forms of sexual oppression, inviting comparative questions about authority and violence, social attitudes, and sexual tensions, the impact of slavery, as well as the twisted course of race relations among blacks, whites, and Indians. Several

scholars look particularly at the Gulf South myopically neglected in traditional literature and an outstanding feature of this collection These eighteen original essays reveal why the intersection of sex and race marks an essential point of departure for understanding southern social relations and a turning point for the field of colonial history The rich varied and distinctive experiences showcased in *The Devil's Lane* provides an extraordinary opportunity for readers interested in women's history African American history southern history and especially colonial history to explore a wide range of exciting issues
