has long been the standard in the field for health related fitness education and this latest rendition is the best and most complete package yet. A comprehensive three in one resource. The entire Physical Best program was previously spread over three books: Physical Education for Lifelong Fitness, Physical Best Activity Guide Elementary Level, and Physical Best Activity Guide Middle and High School Levels. It now is offered in one all inclusive resource to reinforce the scope and sequence of the program so teachers can see what comes before and after the grade levels they teach. Updated material to address standards. All chapters and activities are updated to address SHAPE America's National Standards and Grade Level Outcomes for K-12 Physical Education. Teachers can be confident they are measuring student progress effectively. New or revised chapters. Teachers will benefit from the new information on the latest research, technology, power training, professional development, best practices, and more. An attractive four color layout. The text now features four color illustrations. A web resource that includes K-12 activities. With previous editions, the activities were housed in two separate books, one for elementary teachers and one for middle and secondary teachers. Now all activities are on the accompanying web resource where teachers can sort the activities by standard, grade, outcome, and skill, and then use them on a mobile device or download and print them. Most activities are supported by ready to use reproducible forms such as handouts, assessments, posters, and worksheets. The text supplies tips for addressing each fitness component within a program. Part III presents strategies for integrating health related fitness education throughout the curriculum, employing best teaching practices, and being inclusive in the gym, on the field, and in the classroom.
