Re: vs.

Dear :

Due to the fact that has not been able to locate the Releases you previously executed, I am enclosing a second set of duplicate originals of the Release. You need to execute the Releases on page 3 and page 5 before a notary and return to me at your earliest convenience. Once the Releases are returned to me, I will forward them to and he has informed me that he will hand deliver them to and have them sign, so that we can conclude this matter as soon as possible.

Please call if you have any questions.

Sincerely,

Sample Letter For Lost Documents:

The Lost Archive Marina Rustow, 2020-01-14 A compelling look at the Fatimid caliphate's robust culture of documentation. The lost archive of the Fatimid caliphate 909-1171 survived in an unexpected place: the storage room or geniza of a synagogue in Cairo, recycled as scrap paper and deposited there by medieval Jews. Marina Rustow tells the story of this extraordinary find, inviting us to reconsider the longstanding but mistaken consensus that before 1500 the dynasties of the Islamic Middle East produced few documents and preserved even fewer. Beginning with government documents before the Fatimids and paper's westward spread across Asia, Rustow reveals a millennial tradition of state record keeping whose very continuities suggest the strength of Middle Eastern institutions, not their weakness. Tracing the complex routes by which Arabic documents made their way from Fatimid palace officials to Jewish scribes, the book provides a rare window onto a robust culture of documentation and archiving, not only comparable to that of medieval Europe but in many cases surpassing it. Above all, Rustow argues that the problem of archives in the medieval Middle East lies not with the region's administrative culture but with our failure to understand preindustrial documentary ecology. Illustrated with stunning examples from the Cairo Geniza, this compelling book advances our understanding of documents as physical artifacts, showing how the records of the Fatimid caliphate, once recovered, deciphered, and studied, can help change our thinking about the medieval Islamic world and about premodern polities more broadly.

Fundamentals of California Litigation for Paralegals Marlene A. Maerowitz, Thomas A. Mauet, 2007-06-22 The new edition of Maerowitz and Mauet's *Fundamentals of California Litigation for Paralegals* gives students a complete explanation of California-specific litigation. Clearly written with the student in mind, the text makes the material accessible while the accompanying workbook and forms put theory into practice. These features make this text an appealing choice. It offers a complete understanding of the litigation process from the time the client walks into the office through trial and post-judgment, including settlements and alternative forms of resolutions. A balanced approach, neither oversimplifying the litigation process nor clouding the educational course with excessive information, pedagogical aids such as bold-faced terms, defined in the glossary, examples, charts, and checklists, sample documents, chapter overviews, and summaries, and review questions are featured throughout the text, tailored to the California rules, with each chapter referencing the specific California statute where more information can be found, and California forms included throughout. It provides opportunities for the instructor to pick and choose which areas to emphasize. A workbook on CD accompanies the text and includes five case scenarios based on California law, along with associated Judicial Council forms to be used as practical exercises. The Instructor's Manual provides answers to the questions posed in the workbook and book, as well as a test bank of questions that include true/false, short answer, and essay questions, so that the instructor can choose the type of test to give. Projects for research and writing sample forms and suggested course outlines are also included.

Changes to the Third Edition

include chapters on motions and discovery tools have been broken down into separate sections so that they are both easier for the student to understand and digest and easier for the instructor to teach depositions interrogatories and document production have been included and demurrers motions to strike and summary judgment have been broken out into separate sections more information included on litigation management systems and how to use such systems to index and retrieve documents in large cases reflects most recent changes in the California rules This student friendly text offers a teachable approach to the subject of California litigation The content is neither oversimplified nor saturated with excess information which allows for a smooth introduction Fundamentals of California Litigation for Paralegals Third Edition offers a complete understanding of the litigation process allowing students to walk away with a firm understanding of the complete picture
