Demolition Agenda Thomas O. McGarity, 2022-05-17 The first comprehensive account of the Trump administration's efforts to destroy our government institutions by the man Ralph Nader says writes authoritatively and with revealing detail about important topics that few others cover Tom McGarity writes authoritatively and with revealing detail about important topics that few others cover Ralph Nader Koch Industries spent 3.1 million in the first three months of the Trump administration largely to ensure confirmation of Scott Pruitt as head of the EPA By July 2018 more than sixteen federal inquiries were pending into Pruitt's mismanagement and corruption But Pruitt was just the first in a long line of industry friendly incompetent and destructive agency heads put in place by the Trump administration in its effort to dismantle the federal government's protective edifice Remember Secretary of the Interior Ryan Zinke who before he faced eighteen separate federal inquiries and was fired made a deal with Halliburton to build a brewery on land that Zinke owned in

Montana Or how about Transportation Secretary Elaine Chao who rescinded requirements that high hazard trains install special braking systems weakened standards for storing natural gas and lengthened the hours that truck drivers could be on the road without a break even as she failed for two years to divest her interest in a road materials manufacturer And then there were Rick Perry Betsy DeVos Sonny Perdue Andrew Puzder the list goes on In an original and compelling argument Thomas McGarity shows how adding populists to the Republican s traditional base of free market ideologues and establishment Republicans allowed Trump to come dangerously close to achieving his goal of demolishing the programs that Congress put in place over the course of many decades to protect consumers workers communities children and the environment Finally McGarity offers a blueprint for rebuilding the protective edifice and restoring the power of the American government to offer all Americans better lives

Navigating the Jungle Steven C. Tauber,2015-08-27 For much of our history legal scholars focused predominantly on the law s implications for human beings while ignoring how the law influences animal welfare Since the 1970s however there has been a steep increase in animal advocates use of the courts Animal law has blossomed into a vibrant academic discipline with a rich literature that examines how the law affects animal welfare and the ability of humans to advocate on behalf of nonhuman animals But most animal law literature tends to be doctrinally based or normative There has been little empirical study of the outcomes of animal law cases and there has been very little attention paid to the political influences of these outcomes This book fills the gap in animal law literature This is the first empirically based analysis of animal law that emphasizes the political forces that shape animal law outcomes
