Enacted Mathematics Curriculum Denisse R Thompson, Zalman Usiskin, 2014-01-01 This volume is an outgrowth of the Conference on Research on the Enacted Mathematics Curriculum funded by the National Science Foundation and held in Tampa Florida in November 2010 The volume has the potential to be useful to a range of researchers from established veterans in curriculum research to new researchers in this area of mathematics education The chapters can be used to generate conversation about researching the enacted mathematics curriculum including similarities and differences in the variables that can and should be studied across various curricula As such it might be used by a curriculum project team as it outlines a research agenda for curriculum or program evaluation It might also be used as a text in a university graduate course on

curriculum research and design The chapters in this volume are a natural complement to those in *Approaches to Studying the Enacted Mathematics Curriculum* Heck Chval Weiss Ziebarth 2012 also published by Information Age Publishing While the present volume focuses on a range of issues related to researching the enacted mathematics curriculum including theoretical and conceptual issues the volume by Heck et al provides insights into different instrumentations used by groups of researchers to study curriculum enactment

Cases of Teachers' Data Use Nicole Barnes, Helenrose Fives, 2018-04-27

Cases of Teachers Data Use addresses applications of student data beyond theoretical school and district level examinations by presenting case studies of teachers data use in practice Within the context of data driven education reform policies the authors examine the effective and ineffective ways that teachers make use of student data in instruction evaluation and planning Promising practices based on the empirical research presented offer strategies and routines for sound data use that can be applied in schools Chapters written by scholars from diverse methodological perspectives offer readers multiple lenses to use in considering issues of data use such that current theoretical assumptions may be challenged and the field advanced This uniquely focused yet comprehensive work is an indispensable resource for researchers and students interested in classroom assessment and for professionals looking to support teachers use of student performance data for adaptive instruction
