"How many more?" A phrase repeated by Hollywood stars in a commercial aired on TV. The commercial was intended to gain empathy from the viewer by listing the places where mass shootings occurred and also talks about loved ones lost. It was shown after the most recent mass shooting in Las Vegas at the Route 91 festival. The tragic incident sparked an uproar on the topic of gun control in America. Many Americans couldn't agree more with what was said in the commercial, asking how many more and when will we come up with a plan; however, their solutions differ drastically. The commercial was made in support of stricter gun control but Pro-Second Amendment advocates would agree that there's a problem. However, their answer is not gun control and people are speaking up about why we should protect the right to bear arms. I will discuss the most common beliefs amongst Pro-Second Amendment advocates, which are; gun control laws will not prevent criminals from obtaining guns or crime, stricter gun laws have proven ineffective and most importantly the right to bear arms is a necessary freedom of the American people.

First, stricter gun laws do not deter crime and will not prevent criminals, or those with malicious intent, from obtaining firearms. A gun rights activist, John R. Lott, Jr., once said "the problem with such gun control laws is that they take away gun rights from law abiding citizens, while would-be criminals ignore them" (ProCon, n.d.). A study done in 2013 found that between 1980 and 2009, at state level, assault weapon bans did not significantly affect murder rates. The study also found states with restrictions placed around concealed carry had higher gun-related murders (ProCon, n.d.). It is a fact that criminals do not obey laws, not just regarding guns, but laws restricting theft, sexual assault, or murder. Also, just because something is made illegal does not mean it stops people from getting a hold of it, most common example of this is drugs. Although drugs are illegal many Americans are still able to obtain them when needed. Many people who carry firearms not only believe, but hope, that due to fear of retaliation criminals will think twice before attempting to cause harm.

Second, stricter gun control laws have been proven to be ineffective. The following quote from TIME is a good example of how stricter gun laws were not the reason for a decrease in gun homicides. TIME shared this in an article written just days after the Las Vegas Route 91 mass shooting; "In 2004, Bill Clinton's ban on semiautomatic rifles, known as assault weapons, expired. But rather than spiking back up, the rate of gun homicides continued to drop. From 1993 to 2014, that rate declined from seven firearm-related homicides per 100,000 Americans to half that, according to the Centers for Disease Control and Prevention." (TIME, 2018). It is important that we take a look at the outcome of either specific states in the U.S. that have e
