The Great Exchange: Making the News in Early Modern Europe Joad Raymond Wren, 2025-07-10

An epic history of the birth of news in Europe. News moves. It is a battle, a scandal, a disaster. It is a letter, a newspaper, a proclamation. News is a material thing but also something between us, something we take into us and feel. This book tells the story of news from the sunset of the Middle Ages to the rise of mass media in modern times. It begins in Renaissance Italy with the envoys and merchants who drew in and disseminated news across Europe, establishing its channels and conventions. Following the beat of news around the continent, it uncovers a vast invisible network traversing the boundaries of geography and politics, religion and language. Joad Raymond Wren allows the reader to see news of the battle of Lepanto, the siege of Vienna, spreading around this network in real time. Dispelling the tenacious myth that news was until the printing press scarce and unreliable, and until the telegraph slow and provincial, he opens up windows onto a world buzzing with news from faraway. News brought the distant closer and provided the means for Europe to know itself. The continent was for a time held together by that most essential of human acts: communication.

[The Commander](#) Laila Parsons, 2017-02-06

Revered by some as the Arab Garibaldi, maligned by others as an intriguer and opportunist, Fawzi al Qawuqji manned the ramparts of Arab history for four decades, leading or helping to lead Arab forces in nearly every significant military conflict from 1914 to 1948. When an effort to overthrow the British rulers of Iraq failed, he moved to Germany, where he spent much of the Second World War battling his fellow exile, the Mufti of Jerusalem, who had accused him of being a British spy. In 1947, Qawuqji made a daring escape from Allied-occupied Berlin and sought once again to shape his region's history. In his most famous role, he would command the Arab Liberation Army in the Arab-Israeli war of 1948. In this well-crafted, lively, and definitive biography, Laila Parsons tells Qawuqji's dramatic story and sets it in the full context of his turbulent times. Following Israel's decisive victory, Qawuqji was widely faulted as a poor commander with possibly dubious motives. Parsons shows us that the truth was more complex: although he doubtless made some strategic mistakes, he never gave up fighting for Arab independence and unity, even as those ideals were undermined by powers inside and outside the Arab world. An outstanding book, one of the most important new works in modern Middle Eastern history.

Eugene Rogan, author of *The Arabs*. With great skill and impressive scholarship, Laila Parsons uses the extraordinary career of Fawzi al Qawuqji as a prism through which to understand the tumultuous history of the Arab world in the first half of the twentieth century.

yet literary texts are precisely those that question this distinction articulating the link between languages and cultures as well as the inherent strangeness of even one's own mother tongue M Other Tongues explores texts from the 16th century to the 21st century focusing on different aspects of one main feature of literary texts formally as well as semantically they transcend the rules and conventions of the language they speak Crossing cultural borders is commonly discussed in historical social linguistic and psychoanalytical terms whether it be as post colonialism exilic or diasporic identities creoles or the displaced other within the own M Other Tongues argues that rather than being mere evidence in the theoretical analysis of cultural transitions literary texts are a unique medium to reflect such processes as they challenge and modify the notion of language itself The book discusses texts written mainly in English French and German but also in Spanish and the complex formerly known as Yugoslavian M Other Tongues shows that such distinctions between languages are precise since they can be exemplified with an indefinite number of words and rules and still remain uncertain because they cannot be abstracted from these examples What separates the mother tongue from other tongues is indeed precise uncertainty *English*
