The Secret of Coaching and Leading by Values Simon L. Dolan,2020-06-07 Coaches play a major role in helping people understand their values and the values of their surroundings and helping them make choices and adapt Sometimes the choice may be to find a situation more in sync with your values Or it may mean working hard on yourself or in concert with your partner team or organization Whatever we need to do to attain it a positive fit makes for a happier person and a happier person will be more successful This accessible and practical book will help coaches educators leaders and managers understand the philosophy methodology and tools that can be used to make a person happier healthier and more productive at work and in life in general This book compiles short vignettes from over a dozen global academics and celebrated executive coaches sharing information about aligning values in different settings Based on years of research and written for readers from all walks of life you will learn that when you understand your core values place them on a triaxial template and align them with your definition of success everything changes It will help you come out of your comfort zone in order to embrace the future and enhance the quality of your life For this you need a concept a methodology and effective tools all of which are offered in this book Rich with practical step by step methodologies and tools to facilitate values led leadership coaching and mentoring this book is essential for any change agent be it a coach a leader an educator or any person who is interested in learning how to become more effective improve their practice and engage in

self or professional coaching At the same time it will enhance leadership qualities *Concepts in Bioinformatics and Genomics* Jamil Momand,Alison McCurdy,2017 *Concepts in Bioinformatics and Genomics* takes a conceptual approach balancing biology mathematics and programming while highlighting relevant real world applications and providing students with the tools to compute and analyze biological data Through many thought provoking exercises students will develop a deeper understanding of the molecular biology basic probability software programs and program coding methodology underpinning this exciting field **Everything You Know About Science is Wrong** Matt Brown,2017-02-16 A highly entertaining myth busting read for anyone with even a passing interest in science Hot on the heels of the fascinating compendium *Everything You Know About London Is Wrong* this next book in the series written by author Matt Brown in his trademark humourous style debunks the scientific myths we all take for granted Does nothing travel faster than the speed of light Well in certain circumstances a winded tortoise can go faster Are there actually seven colours in a rainbow Think again And our author merrily explains why our hair and nails don t keep growing after we die and why chemicals in our diet might not be the toxic threats we are led to believe Covering everything from pseudoscience to phenomena of physics scandals of space and scientific misquotes *Everything You Know About Science is Wrong* shatters a range of illusions we have accepted unquestioningly since childhood and demystifies this most puzzling of subjects **Network Pharmacology and Traditional Medicine: Setting the New Standards by Combining In silico and Experimental Work** Shao Li,Yuanjia Hu,Xuezhong Zhou,2022-11-24 **Disability's Challenge to Theology** Devan Stahl,2022-08-15 *Disability s Challenge to Theology* uses insights from disability studies to understand in a deeper way the ethical implications that genetic technologies pose for Christian thought Theologians have been debating genetic engineering for decades but what has been missing from many theological debates is a deep concern for persons with genetic disabilities In this ambitious and stimulating book Devan Stahl argues that engagement with metaphysics and a theology of nature is crucial for Christians to evaluate both genetic science and the moral use of genetic technologies such as human genetic engineering gene therapy genetic screenings preimplantation genetic diagnosis and gene editing Using theological notions of creation ex nihilo and natural law alongside insights from disability studies Stahl seeks to recast the debate concerning genetic well being Following the work of Stanley Hauerwas Stahl proposes the church as the locus for reimagining disability in a way that will significantly influence the debates concerning genetic therapies Christianity has all too frequently been complicit in excluding degrading and marginalizing people with disabilities but the new Christian metaphysics developed here provides normative theological guidance on the use of genetic technologies today Only by heeding the voices of people with disabilities can Christians remain faithful to the call to find Christ in the least of these and from there draw closer to God Cumulated Index Medicus ,1991 **Biocomputing 2007 - Proceedings Of The Pacific Symposium** Russ B Altman,A Keith Dunker,Lawrence Hunter,Teri E Klein,Tiffany A Jung,2006-12-11 *The Pacific Symposium on Biocomputing PSB 2007* is

an international multidisciplinary conference for the presentation and discussion of current research in the theory and application of computational methods in problems of biological significance Presentations are rigorously peer reviewed and are published in an archival proceedings volume PSB 2007 will be held January 3-7 2007 at the Grand Wailea Maui Tutorials will be offered prior to the start of the conference PSB 2007 will bring together top researchers from the US the Asian Pacific nations and around the world to exchange research results and address open issues in all aspects of computational biology It is a forum for the presentation of work in databases algorithms interfaces visualization modeling and other computational methods as applied to biological problems with emphasis on applications in data rich areas of molecular biology The PSB has been designed to be responsive to the need for critical mass in sub disciplines within biocomputing For that reason it is the only meeting whose sessions are defined dynamically each year in response to specific proposals PSB sessions are organized by leaders of research in biocomputing s hot topics In this way the meeting provides an early forum for serious examination of emerging methods and approaches in this rapidly changing field
