Section 2 Modern Classification Study Guide Answers:

Questions and Answers in the English Courtroom (1640–1760) Dawn Archer, 2005-06-22 This book belongs to the rapidly growing field of historical pragmatics. More specifically, it aims to lend definition to the area of historical sociopragmatics. It seeks to enhance our understanding of the language of the historical courtroom by documenting changes to the discursive roles of the most active participant groups of the English courtroom, e.g. the judges, lawyers, witnesses, and defendants in the period 1640–1760. Although the primary focus is on questions and answers, this book also analyses the use of eliciting and non-eliciting devices, e.g. requests and commands, as a means of demonstrating similarities and differences over time. Particular strengths of this work include the study of different types of trial, making the results potentially more representative of the courtroom in general, and the innovative discourse analytic approach which blends corpus methodology and sociopragmatic analysis, thereby enabling the quantitative analysis of functional phenomena. *Modern Maritime Law (Volume 2)* Aleka Mandaraka-Sheppard, 2013-12-17 This unique title examines in depth issues of jurisdiction, maritime law, and practice from a modern perspective and highlights the importance of risk management with a view to avoiding pitfalls in litigation or arbitration and minimising exposure to liabilities. The third edition has been fully revised and restructured into two self-contained volumes: the first covering jurisdictional issues and risks, and the second exploring the diverse aspects of maritime law, risks, and liabilities. The second volume tackles the substantive maritime law with a particular emphasis on risk and liabilities and analyses issues of contract, tort, and criminal law, causation, and remoteness of damages. Key features of Volume Two include: An analysis of the regulatory regime, new EU and IMO safety at sea legislation, reforming practices for flag states and recognised organisations, vetting codes of good practice and International Conventions. An explanation of the Rules of attribution of liability, the impact of the ISM Code upon liabilities, including criminal corporate manslaughter and the new Directive for ship source pollution. Important developments in areas including Ship managing risks, best endeavours, and fiduciary duties. Mortgagees' risks and economic torts. New BIMCO standard terms of contracts. Ship sale risks, including sale as is and as she was. Shipbuilding risks, guarantees, and performance bonds. New trends on wrongful acts of employees, collisions, and measure of damages, salvage issues, environmental salvage, and towage contracts. Piracy risks, cases, and general average. New perspectives on risks and liabilities of port authorities. Thomé H. Fang, Tang Junyi and Huayan Thought King Pong Chiu,2016-06-27

In Thom H Fang Tang Junyi and Huayan Thought King Pong Chiu discusses Thom H Fang and Tang Junyi two of the most important Confucian thinkers in twentieth century China who appropriated aspects of the medieval Chinese Buddhist school of Huayan to develop a response to the challenges of scientism the belief that quantitative natural science is the only valuable part of human learning and the only source of truth As Chiu argues Fang s and Tang s selective appropriations of Huayan thought paid heed to the hermeneutical importance of studying ancient texts in order to be more responsive to modern issues and helped confirm the values of Confucianism under the challenge of scientism a topic widely ignored in academia
