The Second World War: Europe and the Mediterranean Thomas E. Griess, 2014-03-28 OVER 210 000 WEST POINT MILITARY HISTORY SERIES SETS IN PRINT From the prewar development of the German war machine to the ultimate victory of the Allied coalition here is an in depth analysis of the battles that raged on the Western and Eastern Fronts It examines the major strategies the innovative tactics and the new generation of weapons along with the people who used them Europe and America John Peterson, 2002-09-11 The conflict in Bosnia disputes within the new World Trade Organization and debates about NATO enlargement all illustrate a single point no relationship is more important in determining the state of international relations than the alliance between Europe and America Contrary to accepted wisdom John Peterson argues that the end of the Cold War actually enhances the prospects for partnership between the United States and the European Union Completely updated this book offers a clear and penetrating analysis of the problems and opportunities facing the transatlantic alliance The Oxford History of the Renaissance Gordon Campbell, 2023-05-11 Histories you can trust The Renaissance is one of the most celebrated periods in European history But when did it begin When did it end And what did it include Traditionally regarded as a revival of classical art and learning centred upon fifteenth century Italy views of the Renaissance have changed considerably in recent decades The glories of Florence and the art of Raphael and Michelangelo remain an important element of the Renaissance story but they are now only a part of a much wider story which looks beyond an exclusive focus on high culture beyond the Italian peninsula and beyond the fifteenth century The Oxford History of the Renaissance tells the cultural history of this broader and longer Renaissance from seminal figures such as Dante and Giotto in thirteenth century Italy to the waning of Spain's golden age in the 1630s and the closure of the English theatres in 1642 the date generally taken to mark the end of the English literary Renaissance Geographically the story ranges from Spanish America to Renaissance Europe's encounter with the Ottomans and far beyond to the more distant cultures of China and Japan And thematically under Gordon Campbell's expert editorial guidance the volume covers the whole gamut of Renaissance civilization with chapters on humanism and the classical tradition war and the state religion art and architecture the performing arts literature craft and technology science and medicine and travel and cultural exchange **The Second World War: Asia and the Pacific** Thomas E. Griess, 2014-03-28 OVER 210 000 WEST POINT MILITARY HISTORY SERIES SETS IN PRINT Beginning with a look at the readiness of the Imperial Japanese Army and Navy and the United States armed forces this book gives a detailed account of the Allies brutal five year struggle with Japan It examines the interrelationship of land sea and air forces as they battled over the vast reaches of the Pacific Theater of War Japanese War Crimes and Related Topics: A Guide to Records at the National Archives United States. EU Law,

Fundamental Rights and National Democracy Eduardo Gill-Pedro, 2019-08-01 The orthodox view is that rights complement democracy This book critically examines this view in the context of EU fundamental rights specifically in situations where EU law requires member states to respect EU fundamental rights It first sets out a legal theoretical account of how human rights can complement democracy It argues that they can do so only if they are understood as both the conditions for the democratic process and the outcome of such a democratic process In light of this legal theoretical account of human rights this book examines the demands which the Court of Justice of the EU CJEU imposes on the national orders in respect of EU fundamental rights The conclusion reached is that the demands which EU fundamental rights impose on national legal orders entail a cost for the democratic legitimacy of those legal orders Ultimately accepting the demands of the CJEU in respect of EU fundamental rights may require the national legal order to abandon its commitment to protecting the human rights which are the foundation of the national legal order s very legitimacy
