Manual of Judaeo-Romance Linguistics and Philology Guido Mensching, Frank Savelsberg, 2023-10-24 This manual provides a detailed presentation of the various Romance languages as they appear in texts written by Jews mostly using the Hebrew alphabet It gives a comprehensive overview of the Jews and the Romance languages in the Middle Ages part I as well as after the expulsions part II These sections are dedicated to Judaeo Romance texts and linguistic traditions mainly from Italy northern and southern France French and Occitan and the Iberian Peninsula Catalan Spanish Portuguese The Judaeo Spanish varieties of the 20th and 21st centuries are discussed in a separate section part III due to the fact that Judaeo Spanish can be considered an independent language This section

includes detailed descriptions of its phonetics phonology morphology lexicon and syntax *Manual of Discourse Markers in Romance* Maj-Britt Mosegaard Hansen, Jacqueline Visconti, 2024-12-02 Virtually unstudied until the 1980s discourse markers have gone on to become a growth industry Research on markers is central to comprehensive theories of the synchronic linguistic system as such of the use of language in communication and of language change From the very beginning linguists working on Romance languages have been at the forefront of research on discourse markers Including among its contributors many of the foremost experts in the field this volume not only offers substantial state of the art introductions to the diverse facets of contemporary research on discourse markers with a focus on Romance but it achieves added value by including in each chapter original and previously unpublished results The first part of the book addresses foundational issues What are discourse markers What is their relationship to other types of pragmatic markers The second part considers discourse markers at different levels of linguistic description in particular their grammatical status their semantics and pragmatics their prosodic features their positioning within discourse units The third part outlines different approaches to the study of discourse markers namely contrastive studies corpus linguistics discourse traditions and historical linguistics The fourth part explores discourse markers at the interface with central topics in linguistics such as politeness social variation language acquisition and psycholinguistic processing The final part focuses on discourse markers in each of the major Romance languages namely French Italian Spanish Catalan Portuguese and Romanian The volume will be of interest to researchers and students working in the field of Romance studies general linguists pragmaticians discourse analysts educationalists and psychologists Moody's Manual of Investments, American and Foreign; Banks, Insurance Companies, Investment Trusts, Real Estate, Finance and Credit Companies ,1944 **Abstract Barrios** Johana Londoño, 2020-08-10 In Abstract Barrios Johana Londoño examines how Latinized urban landscapes are made palatable for white Americans Such Latinized urban landscapes she observes especially appear when whites feel threatened by concentrations of Latinx populations commonly known as barrios Drawing on archival research interviews and visual analysis of barrio built environments Londoño shows how over the past seventy years urban planners architects designers policy makers business owners and other brokers took abstracted elements from barrio design such as spatial layouts or bright colors to safely Latinize cities and manage a long standing urban crisis of Latinx belonging The built environments that resulted ranged from idealized notions of authentic Puerto Rican culture in the interior design of New York City's public housing in the 1950s which sought to diminish concerns over Puerto Rican settlement to the Fiesta Marketplace in downtown Santa Ana California built to counteract white flight in the 1980s Ultimately Londoño demonstrates that abstracted barrio culture and aesthetics sustain the economic and cultural viability of normalized white and middle class urban spaces **Manual of Romance Forensic Linguistics** Victoria Guillén-Nieto, Dieter Stein, 2025-06-02 It is evident that published serious science based work in Forensic Linguistics is predominantly written in English and focuses on casework from the English speaking world While

the first aspect is understandable given that English serves as an international lingua franca in scientific discourse the second aspect presents a significant limitation for the field Should researchers assume that there is simply less crime in non English speaking areas of the world A more pertinent question might be What cultural disciplinary legal or legal cultural factors contribute to the lack of research in and on languages other than English In addition to addressing the underrepresentation of Romance languages in scientific publications related to forensic work the chapters in this handbook will also explore the reasons behind this unfortunate situation Designed to engage readers whether they are linguists legal professionals or simply interested individuals and to spark interest in Romance Forensic Linguistics this handbook follows three key objectives First we are committed to providing a comprehensive overview of the casework and research conducted in and on several Romance languages including Peninsular Spanish Catalan Brazilian Portuguese French Canadian French Italian and Romanian Second the chapters in this volume seek to understand why Forensic Linguistics has thrived more in some Romance speaking countries than in others Finally we aim to uncover the reasons for the slower development of Forensic Linguistics in regions where Romance languages are predominantly spoken
