

CHILD NURSING PERSONAL STATEMENT

Since I was young, I always had a way with children, especially those with special needs. Whether it was a mischievous toddler that would not stop causing trouble or a quiet six year old that refused to eat, I was able to get them to do things when nobody else could. Although other people saw it as a talent, for me it is more akin to mutual respect. Being with children has always calmed me and reminded me of the importance of nurturing potential as an investment in the future. Combined with my interest in providing patient care, it was only natural that I go into the field of nursing. Now that I have completed my nursing degree, I hope to specialize in Pediatric Nursing by completing a residency in Child Nursing at Brandt University.

My nursing experience thus far has taught me that compassion and care truly can push people beyond what they thought they were capable of. During my emergency rotations, I worked on a team of five nurses to provide around-the-clock care for a small county hospital. The work was exhausting, and the later it got, the more severe the cases. However, we were all determined to save as many lives as we could, and regardless of how few hours of sleep we had gotten the night before, the thought of possibly helping someone live pushed us onward. It is that feeling I hope to continue capturing throughout my residency, and I believe that the skills and knowledge I gained during my nursing education will serve me well during my residency in child nursing.

I am applying to Brandt University's Child Nursing program because it is one of the few programs in the country that emphasize caring for children with special needs. These children express different patterns of behavior and thought than other children, and I believe it is important for nurses to gain experience working with these populations and in some cases, educate parents and the community about their condition. I am not only a nurse, I am a mother myself – and on my part, I want to provide the kind of care to my patients that I would provide to my own children.

Professionalism in Early Childhood Education and Care Carmen Dalli, Mathias Urban, 2013-09-13 The professionalism of the early childhood sector has gained prominence on the policy agendas of many countries National pedagogical frameworks or curricula and an upsurge of pathways to gaining or upgrading qualifications has led to a pervasive terminology of professionalism Yet despite the pervasiveness of this terminology the question of what professionalism means in early years contexts remains open to debate This book draws together the work of an international group of scholars who have engaged with this question They ask How can professionalism be conceptualised in early childhood settings How might one act professionally in increasingly diverse and changing social and cultural contexts Do we have a common ground of understanding about these terms Are there key concepts that can be agreed upon Drawing on research and experience across a wide range of national contexts this book seeks an understanding of early childhood professionalism in local contexts that might throw light on the global implications of this term This book was published as a special issue in the European Early Childhood Education Research Journal

introduction to limit state method limit state method theory of - May 12 2023

web subject theory of reinforced concrete structures video name introduction to limit state method chapter limit state method faculty prof mohammad afifud

rcc lecture 6 limit state vs working stress method way to youtube - Jan 08 2023

web rcc lecture 6 limit state vs working stress method way to engineering by shashank bhatnagar thus video covers the difference between limit state method

limit state method of design different methods of design of rcc - Jun 13 2023

web limit state method of design different methods of design 1 of rcc concrete steel structure 2 working stress method it is based on the elastic theory the material which is linear elastic isotropic and homogeneous limit state method the condition or state at which structure becomes unfit is called the limit state and the philosophy

limit state method definition assumptions advantages types - Feb 09 2023

web oct 6 2022 the limit state method is a method of design of reinforced concrete structures and steel structures this is one of the most popular methods of designing structures and concepts that are important for the gate 2023 exam

limit state design of rcc slideshare - Jul 02 2022

web aug 14 2015 limit state design of rcc 2 limit states and design limit state condition what a structure or structural element is no longer acceptable for its intended use major groups for rc structural limit states ultimate serviceability special 3 ultimate limit state ultimate limit state structural collapse of all or part of the
