

Letter of Introduction to College

MR JOE DAVIES
X UNIVERSITY OF ARTS AND SCIENCE
NEW YORK, 10010-4046
UNITED STATES OF AMERICA

Dear Mr. Brown

I have read the information with great interest on your website about the college offering a Bachelor of Computer Science and Engineering degree study program. Through this introduction letter, I would like to apply for enrolment in this course. In June 2019, I completed my diploma studies at the Chicago College. My diploma was focused on science subjects such as statistics and the sciences. I have now decided to take more advanced courses in chemistry and Biology available in order to challenge myself. In addition, this will help me to prepare for your study program. I am confident that I will succeed in my studies because I have the passion and commitment to do well in science subjects.

I have a particular interest in computer science since around 2015 when I encountered computer coding to create websites while in high school. From there on, I was excited and started working on small website design and development on my own. I have learned some codes from various languages through the Yale College lectures that are accessible online for free. I believe working on computer codes has helped me to be creative because I have previously struggled to improve my creative skills in other fields such as painting. For that reason, I have a sense of achievement once I write a piece of computer code.

To further improve my skills, in September 2018, I was recruited on an internship program for a month at Dread Software Company in Texas, where I worked together with the IT supervisor. During this month, I was assigned to create a database of customers for the company. It was at this time that I came across SQL programming for the first time. This month of work provided me with the opportunity to learn something about SQL and databases. The experience has just given me a better understanding of computer science.

While in high school, I made sure that I was involved in the science club, participating in several events. After completing my first year, I was elected to become a team leader responsible for delegating tasks and organizing science events. I learned that working as a team can bring positive outcomes. At home, I carried out building my first computer and assembled a server. This was an invaluable experience because I started understanding how a computer works.

In regards to enrolling for your program, I intend to combine the knowledge I have gained throughout the years and try to understand better everything possible about computer science and engineering. My main interest has been more on software than hardware. I feel this is the ideal route for me to take because I find joy in solving problems.

Sample University Introduction Letter

Karin Nielsen-Saines

Sample University Introduction Letter:

If you ally infatuation such a referred **Sample University Introduction Letter** book that will find the money for you worth, acquire the definitely best seller from us currently from several preferred authors. If you desire to humorous books, lots of novels, tale, jokes, and more fictions collections are plus launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all ebook collections Sample University Introduction Letter that we will unconditionally offer. It is not vis--vis the costs. Its roughly what you infatuation currently. This Sample University Introduction Letter, as one of the most practicing sellers here will totally be in the middle of the best options to review.
