Sub: Request for Donation for Cancer Patient

Dear Mr. Goenka,

I, the undersigned, am writing you this letter on behalf of "Foundation for Cancer Patients", a non-profit organization which is working to provide healthcare facilities to cancer patients in Delhi. Every year our organization organizes a fundraising campaign with an intention to gather funds to help the cancer patients with their treatments.

I request you to extend your support towards the cause by sending us your contribution by demand draft in favour of "Foundation for Cancer Patients". The collection of the fund will be directed towards all those cancer patients who are unable to get treated because of monetary reasons. We will be using these funds for their medication, surgery and wellness to give them a better life.

Thanking you in anticipation for giving us your time and considering our request for donating funds for cancer patients. If you have any queries about our foundation or the work that we do, please feel free to contact on the number or address shared in the letter.

Sincerely,

Kathy Yoke

*Research Methods in Health Promotion* Laura F. Salazar, Richard Crosby, Ralph J. DiClemente, 2015-03-09. The bestselling textbook to understanding health research, updated and expanded *Research Methods in Health Promotion* provides students and practitioners with essential knowledge and skills regarding the design, implementation, analysis and interpretation of research in the field of health promotion. Now in its second edition, this bestselling textbook has been updated with more recent research methodologies and additional information on sampling, participatory and survey research and qualitative data analysis. The entire research process is covered with specific points relating to both qualitative and quantitative research. By breaking the daunting process of research into simple and well-defined steps, this user-friendly text encourages students to think about research as a sequential process and provides explanations that facilitate better understanding of each step in the research process. A separate set of chapters covers the more quantitative methodological areas including designs, measurement, sampling and data analysis in depth, giving readers the understanding they need to apply in practice. This book also provides applied chapters that illustrate the practical aspects of the research process along with other critical information including grant writing and scientific writing. Evaluate the ethics design, analysis and interpretation of research. Identify and understand the key components of research studies. Analyze and interpret the results of experimental and survey research designs. Understand the process of publishing a research report and constructing a grant proposal. *Research Methods in Health Promotion* is ideal for both undergraduate and graduate methods courses in health promotion and public health.
