Handbook of Sustainability and Social Science Research Walter Leal Filho, Robert W. Marans, John Callewaert, 2017-10-26 In this handbook social science researchers who focus on sustainability present and discuss their findings including empirical work case studies teaching and learning innovations and applied projects As such the book offers a basis for the dissemination of information ideas and experiences acquired in the execution of research projects especially initiatives which have influenced behavior decision making or policy Furthermore it introduces methodological approaches and projects which aim to offer a better understanding of sustainability across society and economic sectors This multidisciplinary overview presents the work of researchers from across the spectrum of the social sciences It stimulates innovative thinking on how social sciences influence sustainable development and vice versa **Perceptual Learning** Kevin Connolly, 2019-01-16 Experts from wine tasters to radiologists to bird watchers have all undergone perceptual learning long term changes in perception that result from practice or experience Philosophers have been discussing such cases for centuries from the 14th century Indian philosopher Vedanta Desika to the 18th century Scottish philosopher Thomas Reid and into contemporary times This book uses recent evidence from psychology and neuroscience to show that perceptual learning is genuinely perceptual rather than post perceptual It also offers a taxonomy for classifying cases in the philosophical literature In some cases perceptual learning involves changes in how one attends in other cases it involves a learned ability to differentiate two properties or to perceive two properties as unified Connolly uses this taxonomy to rethink several domains of perception in terms of perceptual learning including multisensory perception color perception and speech perception As a whole the book offers a theory of the function of perceptual learning Perceptual learning embeds into our quick perceptual systems what would be a slower task were it to be done in a controlled cognitive manner A novice wine taster drinking a Cabernet Sauvignon might have to think about its features first and then infer the type of wine while an expert can identify it immediately This learned ability to immediately identify the wine enables the expert to think about other things like the vineyard or the vintage of the wine More generally perceptual learning serves to free up cognitive resources for other tasks This book offers a comprehensive empirically informed account and explores the nature scope and theoretical implications of perceptual learning Coaching Better Every Season Gilbert, Wade, 2016-11-17 Presents the best coaching methods and practices for each season on the sport calendar pre season in season post season and off season and offers specific actions tools and guidelines for coaches to create a cycle of continuous improvement for themselves their athletes and their teams *Communication and Sport* Andrew C.
