School Decentralization in the Context of Globalizing Governance Holger

Daun, 2006-11-23 Since the beginning of the 1980s decentralization has become a globalized policy and catchword in education a large number of countries around the world have formulated such a policy and many have also implemented it The policies and the changes at the national level have been researched but what has taken place and is taking place at the grassroots level has not received attention until recently This book presents grassroots cases from different countries against the background of the overall changes in governance philosophy and applications It uses case studies from countries in Africa Asia Europe and Latin America and describes what is occurring at this level The book gives an account of different types of decentralization and their impact The first two chapters describe principally structural and organizational educational changes in the broader context of globalized models and the pressure to create a competitive education system and changing governance Decentralization is one of the strategic aspects of this new mode of governance

Implementing School-based Management Harry P. Hatry, 1993 This report presents the findings and recommendations of an examination of the implementation of a major form of school based management SBM It is based on case studies of the science and mathematics departments of 10 high schools and 9 middle or junior high schools in 12 school systems almost all of which are urban school districts The study found that implementation often falls short of the ideal It did not find dramatic changes resulting from SBM However those schools and faculty members that took advantage of their added flexibility under SBM were able to achieve numerous small scale improvements The report provides a series of recommendations for school

districts and individual schools to increase the likelihood of successful implementation of decentralization efforts such as SBM The findings and recommendations cover such issues as 1 the extent of decentralization of budgeting expenditure and personnel decisions 2 the role of site councils and department heads and 3 communication and training needs Appendixes list participating schools and districts and contain a literature review Contains 117 references Author SLD **Final Report** Santa Cruz County (Calif.).
