

Psychotherapy Progress Note

Use this note to document individual, family or couples psychotherapy sessions and person's response to the intervention during a specific contact.

Data Field	
Person's Name	Record the first name, last name, and middle initial of the person. Order of name is at agency discretion.
Record Number	Record your agency's established identification number for the person.
Person's DOB	Record the person's date of birth.
Organization Name:	Record the organization for whom you are delivering the service.
Modality	Check appropriate box to indicate the type of session: individual, family or couple.
List Name(s) of Person(s) Present	Check appropriate box to indicate whether the person is Present, is a No Show/Cancelled or the Provider Cancelled. For cancellations, complete Explanation as needed. Check appropriate box to indicate if others are present, list name(s) and relationship(s) to person.
Person's Report of Progress Towards Goals/Objectives Since Last Session	Document person's self-report of progress towards goals since last session including other sources of information, such as family, case manager, etc.
New Issue(s) Presented Today	<p>There are four options available for staff using this section of the progress note:</p> <ol style="list-style-type: none"> 1. If person does not report/present any new issues, mark "None Reported" and proceed to planned intervention/goals. 2. If person reports a new issue that was resolved during the session, check the "New Issue resolved, no CA Update required" box. Briefly document the new issue, identify the interventions used in the Therapeutic Interventions Section, and indicate the resolution in the Response Section of the progress note. Example: Person described being involved in a minor car accident today. Person was not hurt but expressed concern regarding expense of car repair. Person felt more relieved after identifying ways to cover expense over the next two weeks. 3. If person presents an issue that has been previously assessed and for which Goals/Objectives and services have been ordered, then the information may be briefly documented as an indicator of the progress or lack of progress achieved. 4. If person presents any new issue(s) that represent a therapeutic need that is not already being addressed in the IAP, check box indicating a "CA Update Required" and record notation that new issue has been recorded on a Comprehensive Assessment Update of the same Date and write detailed narrative on the appropriate CA Update as instructed in this manual. Also, the newly assessed therapeutic information may require a new goal, objective, therapeutic intervention or service that will require further use of the IAP Review/Revision form. <p>Example: Person reported for the first time that she was a victim of abuse/neglect at the age of twelve as recorded on the Comprehensive Assessment Update of this date.</p>

Maltreatment in Early Childhood Robin Vanderlaan, Kathleen Coulborn Faller, 2021-02-25

Detect and put a stop to child abuse. For mental health professionals, social workers, legal professionals, and policy makers. *Maltreatment in Early Childhood: Tools for Research Based Intervention* examines strategies and ideas for professional training in child protection in the United States. Derived from presentations at the San Diego Conference Responding to Child Maltreatment, this book addresses current assessment issues, the intersection of child maltreatment and other social problems, the history of child protection, and the intricacies of courtroom testimonies, and provides guidance for case management. Through insight into research and case studies, *Maltreatment in Early Childhood* explores effective approaches to child friendly services, multivictim cases, therapy, and victim recantation to help you assist sexually abused children or children who have witnessed domestic abuse. Addressing a variety of challenges that face all those involved with youth in need of assistance due to abuse, this informative book examines why children of different racial identities may display different secret keeping behavior and presents a variety of approaches that encourage clients to talk about their situation. *Maltreatment in Early Childhood* explores child abuse from a historical and political context and discusses key issues relating to all facets of this social problem, including understanding the pros and cons of asking children to recall their experiences through specific types of questions, such as invitational questions and less preferred questions, which may or may not reveal true answers. Deciding if the Validity Checklist, the second part of the Analysis procedure, is able to determine truthfulness of allegations in child sexual abuse cases, testing the efficacy of the model designed at the National Children's Advocacy Center (NCAC), which may be used to validate abuse and determine if children's statements are accurate, overcoming difficulties in the child protection system, including the probability of multiple interviews and potential contamination of children's narratives by a variety of sources to produce fair evaluations and successful prosecutions. With tables and charts that will help you easily explore research findings, *Maltreatment in Early Childhood* provides you with the information you need in order to determine the truth of children's statements, how to present statements in court, and how to affect changes that will protect and assist victims of childhood sexual abuse.
