God from the Machine William Sims Bainbridge, 2006-04-17 God from the machine deus ex machina refers to an ancient dramatic device where a god was mechanically brought onto the stage to save the hero from a difficult situation But here William Sims Bainbridge uses the term in a strikingly different way Instead of looking to a machine to deliver an already known god he asks what a computing machine and its simulations might teach us about how religion and religious beliefs come to being Bainbridge posits the virtual town of Cyburg population 44 100 Then using rules for individual and social behavior taken from the social sciences he models a complex community where residents form groups learn to trust or distrust each other and develop religious faith Bainbridge's straightforward arguments point to many more applications of computer simulation in the study of religion God from the Machine will serve as an important text in any class with a social scientific approach to religion

Reimagining Social Medicine from the South Abigail H. Neely, 2021-07-12 In *Reimagining Social Medicine from the South* Abigail H Neely explores social medicine's possibilities and limitations at one of its most important origin sites the Pholela Community Health Centre PCHC in South Africa The PCHC's focus on medical and social factors of health yielded remarkable success And yet South Africa's systemic racial inequality hindered health center work and witchcraft illnesses challenged a program rooted in the sciences To understand Pholela's successes and failures Neely interrogates the social in social medicine She makes clear that the social sciences the PCHC used failed to account for the roles that Pholela's residents and their environment played in the development and success of its program At the same time the PCHC's reliance on biomedicine prevented it from recognizing the impact on health of witchcraft illnesses and the social relationships from which they emerged By rewriting the story of
