*School Science* Smithsonian Institution,National Academy of Engineering,National Science Resources Center of the National  
Academy of Sciences,Institute of Medicine,1998-04-30 With age appropriate inquiry centered curriculum materials and  
sound teaching practices middle school science can capture the interest and energy of adolescent students and expand their  
understanding of the world around them Resources for Teaching Middle School Science developed by the National Science  
Resources Center NSRC is a valuable tool for identifying and selecting effective science curriculum materials that will  
engage students in grades 6 through 8 The volume describes more than 400 curriculum titles that are aligned with the  
National Science Education Standards This completely new guide follows on the success of Resources for Teaching  
Elementary School Science the first in the NSRC series of annotated guides to hands on inquiry centered curriculum  
materials and other resources for science teachers The curriculum materials in the new guide are grouped in five chapters by  
scientific area Physical Science Life Science Environmental Science Earth and Space Science and Multidisciplinary and  
Applied Science They are also grouped by type core materials supplementary units and science activity books Each  
annotation of curriculum material includes a recommended grade level a description of the activities involved and of what  
students can be expected to learn a list of accompanying materials a reading level and ordering information The curriculum  
materials included in this book were selected by panels of teachers and scientists using evaluation criteria developed for the  
guide The criteria reflect and incorporate goals and principles of the National Science Education Standards The annotations  
designate the specific content standards on which these curriculum pieces focus In addition to the curriculum chapters the  
guide contains six chapters of diverse resources that are directly relevant to middle school science Among these is a chapter

on educational software and multimedia programs chapters on books about science and teaching directories and guides to science trade books and periodicals for teachers and students Another section features institutional resources One chapter lists about 600 science centers museums and zoos where teachers can take middle school students for interactive science experiences Another chapter describes nearly 140 professional associations and U S government agencies that offer resources and assistance Authoritative extensive and thoroughly indexed and the only guide of its kind Resources for Teaching Middle School Science will be the most used book on the shelf for science teachers school administrators teacher trainers science curriculum specialists advocates of hands on science teaching and concerned parents Life Science William L.
