Soil Conservation Service, 1959      Understanding Gender and Organizations Mats Alvesson, Yvonne Due Billing, 2009-05-07 An unusually comprehensive and sophisticated analysis of how organizations and the men and women who work within them are affected by gendered processes and relations Alvesson and Billing's contribution is unique in its sensitivity to the wide range of processes affected by gender paired with its sensitivity to the pitfalls of inappropriately applying a gender lens This book is a must read for organizational researchers and gender scholars Debra Meyerson Stanford University Students and scholars alike will find this at once a useful overview and a thought provoking take on the complexity of gender in organizations and gendered organizations Robin J Ely Warren Alpert Professor of Business Administration Harvard Business School In the decade since the first edition of this critical and provocative text many aspects of gender have changed and many have stayed the same While the gendered study of organizations is a growing field in its own right in many real life organizations gaps in gendered job roles and pay are as entrenched as they were This Second Edition is a long awaited update to an essential text in this dynamic and expanding field of inquiry incorporating new international perspectives that incorporate recent theory and debate and a new chapter on gender and identity      **Taking The Field** Michael A. Messner, 2002-07-17 In the past when sport simply excluded girls the equation of males with active athletic power and of females with weakness and passivity seemed to come easily almost naturally Now however with girls and women's dramatic movement into sport the process of exclusion has become a bit subtler a bit more complicated and yet as Michael Messner shows us in this provocative book no less effective In *Taking the Field* Messner argues that despite profound changes the world of sport largely retains and continues its longtime conservative role in gender relations To explore the current paradoxes of gender in sport Messner identifies and investigates three levels at which the center of sport is constructed the day to day practices of sport participants the structured rules and hierarchies of sport institutions and the dominant symbols and belief systems transmitted by the major sports media Using these insights he analyzes a moment of gender construction in the lives of four and five year old children at a soccer opening ceremony the way men's violence is expressed through sport the interplay of financial interests and dominant men's investment in maintaining the status quo in the face of recent challenges and the cultural imagery at the core of sport particularly televised sports Through these examinations Messner lays bare the practices and ideas that buttress as well as those that seek to disrupt the masculine center of sport *Taking the Field* exposes the subtle and not so subtle ways in which men and women collectively construct gender through their interactions interactions contextualized in the institutions and symbols of sport      **Proceedings of**
