American Government and Politics Today, Brief Steffen Schmidt, Mack Shelley, Barbara A Bardes, Brian King, 2025-01-17
Schmidt Shelley Bardes King's *American Government and Politics Today* Brief 12th Edition brings the American political system to your fingertips in engaging thought provoking and easy to understand ways Whether you are new to American politics or follow events regularly this book provides information examples and analysis for a deeper understanding Written with Generation Z in mind the text explains American politics and how it impacts your life now and in the future The text helps you make sense of issues like COVID 19 Black Lives Matter police brutality trade wars and cyberattacks while learning to be an informed citizen and participant in the political process Praised for its brevity balanced coverage and clarity the text's colorful design political news and analysis help explain fundamentals of the U S government its political system and how it impacts life

Introduction to Political Science Mark Carl Rom, Masaki Hidaka, Rachel Bzostek Walker, 2022-05-09
Designed to meet the scope and sequence of your course *Introduction to Political Science* provides a strong foundation in global political systems exploring how and why political realities unfold Rich with examples of individual and national social action this text emphasizes students role in the political sphere and equips them to be active and informed participants in civil society This is an adaptation of *Introduction to Political Science* by OpenStax You can access the textbook as pdf for free at openstax.org Minor editorial changes were made to ensure a better ebook reading experience Textbook content produced by OpenStax is licensed under a Creative Commons Attribution 4.0 International License

The American Political Science Review Westel Woodbury Willoughby, John Archibald Fairlie, Frederic Austin Ogg, 1913 *American Political Science Review* APSR is the longest running publication of the American Political Science Association APSA It features research from all fields of political science and contains an extensive book review section of the discipline

Serials Currently Received by the National Agricultural Library, 1974 National Agricultural Library (U.S.), 1974

What Does the American Presidency Mean? Richard Holtzman, 2025-06-27 *What Does the American Presidency Mean?* The Need for Interpretation in Presidency Studies makes a compelling case for how interpretivism contributes to our understanding of the American presidency This brief book is accessible and inviting regardless of a reader's background in presidency studies or interpretivism Part I explores several dimensions of interpretivist and positivist methodologies Chapters discuss the characteristics of interpretivism genealogically trace positivism's dominance in presidency studies and identify how attributes of the presidency that raise methodological challenges for positivism are the same that make it fertile ground for interpretivism Part II explores a wide range of interpretive scholarship on the American presidency including studies of presidential meaning making the institution's historical political development presidential symbolism the construction of the presidency and the presidential spectacle It concludes with an interpretation of recent developments emphasizing the timeliness relevance and importance of methodological pluralism in presidency studies The book is written for anyone interested in the

meaning of the presidency whether scholars or graduate students in American political science or those from other disciplines within and outside the United States It is appropriate for courses on the American Presidency Executive Politics Political Communication Rhetoric and Social Science Methods among others *Resources in Education* ,1976-05 Third Party Blues Scot Schraufnagel,2012-04-23 More than many areas of American politics research studies of minor party competition and success are often overly driven by normative concerns that do not hold up to empirical scrutiny This concise book presents a concerted effort to analyze the barriers in election law such as ballot access restrictions and single member districts with a plurality rule that prevent third parties from gaining a durable hold in American politics Rather than trudge through yet another history of third parties in America or polemical arguments for minor party inclusion Schraufnagel provides empirical grounding for the claims of third party backers This thoughtful analysis demonstrates that the inclusion of third parties improves electoral participation rates and that third party involvement in the legislative process is linked to landmark legislative productivity In the end the work provides thoughtful suggestions on the types of reforms that would lead to greater third party success in American elections *A.L.A. Catalog* ,1904 **Engines of Change** Daniel DiSalvo,2012-06-15 Engines of Change which is in the Oxford Studies in Postwar American Political Development series provides the first full account of the role of national intra party factions in American politics Drawing from the last 150 years of American political history DiSalvo explains how factions have shaped the parties ideologies impacted presidential nominations structured patterns of presidential governance and impacted the development of the American state The State of the Parties John C. Green,Daniel J. Coffey,2010-08-16 Every four years The State of the Parties brings readers up to date on party action in election years and in between With the dual themes of continuity and change characterizing the new edition this essential party primer includes three new chapters on party roles in the 2008 election a section on the impact of party resources for the campaign extensive coverage of party mobilization efforts via the Internet and local activity and new chapters covering topics ranging from Republicans fall from grace to party governance under Nancy Pelosi to President Obama s role in party politics and as always a distinguished roster of contributors Contributions by Kira C Allmann William C Binning Melanie J Blumberg Mark D Brewer R Lawrence Butler Melody Crowder Meyer Aaron Dusso Gregory Fortelny Brendan Glavin John S Jackson III Raymond J La Raja Rebekah E Liscio David Magleby Michael J Malbin Daniel Maliniak J Quin Monson Costas Panagopoulos Kelly D Patterson John R Petrocik Matthew Pietryka Jeremy C Pope Ronald B Rapoport Howard L Reiter Nancy L Rosenblum Daniel M Shea Walter J Stone Jeffrey M Stonecash Richard M Skinner and Barbara Trish **Political Parties in the Digital Age** Guy Lachapelle,Philippe Maarek,2015-07-01 The Internet and social media may initially have been understood as just one more instrument politicians could employ to manage without political parties However these media cannot be reduced to being a tool available solely to politicians The electronic media make reinforcement of the glocalization of the public and political sphere a process already set in motion with the advent of

television and they can develop the trend even further Political parties are therefore once again becoming indispensable they are in an unparalleled position to recreate social and political bonds for only they stand both at the center and on the periphery of the new sphere encompassing public and political life

Index of Proper Nouns

The American Year Book Albert Bushnell Hart, 1927 *Serials Currently Received by the National Agricultural Library, 1975* National Agricultural Library (U.S.), 1976 **Race, Gender, and Political Representation** Beth Reingold, Kerry Lee Haynie, Kirsten Widner, 2021

It is well established that the race and gender of elected representatives influence the ways in which they legislate but surprisingly little research exists on how race and gender interact to affect who is elected and how they behave once in office This book takes up the call to think about representation in the United States as intersectional and it measures the extent to which political representation is simultaneously gendered and raced Drawing on original data on the presence policy leadership and policy impact of Black women and men Latinas and Latinos and White women and men in state legislative office in the late twentieth and early twenty first centuries this book demonstrates what an intersectional approach to identity politics can reveal

Encyclopedia of Bohemian and Czech-American Biography Miloslav Rechcigl Jr., 2016-11-10

As the Czech ambassador to the United States H E Petr Gandalovic noted in his foreword to this book that Mla Rechcigl has written a monumental work representing a culmination of his life achievement as a historian of Czech America The Encyclopedia of Bohemian and Czech American Biography is a unique and unparalleled publication The enormity of this undertaking is reflected in the fact that it covers a universe starting a few decades after the discovery of the New World through the escapades and significant contributions of Bohemian Jesuits and Moravian brethren in the seventeenth and eighteenth centuries the mass migration of the Czechs after the revolutionary

year of 1848 and up to the early years of the twentieth century and the influx of refugees from Nazism and communism The encyclopedia has been planned as a representative a comprehensive and authoritative reference tool encompassing over 7 500 biographies This prodigious and unparalleled encyclopedic vade mecum reflecting enduring contributions of notable Americans with Czech roots is not only an invaluable tool for all researchers and students of Czech American history but is also a carte blanche for the Czech Republic which considers Czech Americans as their own and as a part of its magnificent cultural history Beyond the Boundaries Georgia A. Persons,2017-09-29 In the past African American aspirations for political office were assumed to be limited to areas with sizeable black population bases By and large black candidates have rarely been successful in statewide or national elections This has been attributed to several factors limited resources available to African American candidates or identification with a black liberationist ideological thrust Other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates For these reasons the possibility of black candidates winning elections to national office was presumably just a dream Conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend But objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions The contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of African American electoral politics This volume is anchored by a symposium that focuses on new possibilities in African American politics Both the electoral contests of 2006 and the Barack Obama presidential campaign represent an emergent dynamic in American electoral politics Analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely The debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in American politics and the subsequent changing political fortunes of African American candidates

Rethinking American Electoral Democracy Matthew J. Streb,2011-02-01 While frustration with various aspects of American democracy abound in the United States there is little agreement over or even understanding of what kinds of changes would make the system more effective and increase political participation Matthew J Streb sheds much needed light on all the major concerns of the electoral process in this timely book on improving American electoral democracy This critical examination of the rules and institutional arrangements that shape the American electoral process analyzes the major debates that embroil scholars and reformers on subjects ranging from the number of elections we hold and the use of nonpartisan elections to the presidential nominating process and campaign finance laws Ultimately Streb argues for a less burdensome democracy a democracy in which citizens can participate more easily in transparent competitive elections This book is designed to get students of elections and American political institutions to think critically about what it means to be

democratic and how democratic the United States really is Part of the Controversies in Electoral Democracy and Representation series edited by Matthew J Streb *Challenges to the American Founding* Ronald J. Pestritto, Thomas G. West, 2004-12-28 Ronald J Pestritto s and Thomas G West s earlier volume *The American Founding and the Social Compact* addressed the nature of the thought and philosophy of the men who shaped the American founding In this second volume in a trilogy Pestritto and West examine the fate of the founders principles in the nine teeth century when these principles faced their first great challenges Support of slavery culminating in secession and civil war came from the South and after the war came positivism relativism and radical egalitarianism which originated in Europe and infiltrated American universities where intellectuals repudiated the founders views as historically obsolete and insufficiently concerned with true human liberation In ten chapters covering major thinkers in nineteenth century American political thought contributors discuss the rise and resolution of ideological conflicts in the early generations of the American republic In *Challenges to the American Founding* Pestritto and West have compiled an invaluable resource for the roots of the twentieth century departure in American politics from the political vision of the American founders *Political Ideologies and the Democratic Ideal* Terence Ball, Richard Dagger, Daniel I. O'Neill, Jennet Kirkpatrick, 2024-10-29 Now in its twelfth edition *Political Ideologies and the Democratic Ideal* continues the book s tradition of offering a clear concise and comprehensive introduction to the ideas and ideals that shake and shape our political world The text outlines a framework defining each ideology in terms of the four functions ideologies performs explanation evaluation orientation and political program allowing students to compare contrast and analyze the various ideologies developing their own unique views and critical thinking skills New to this Edition A new co author Jennet Kirkpatrick recognized for her teaching and scholarship in political theory feminist theory and resistance Chapter 2 updated material on voter suppression and populism Chapter 3 expanded discussion of the relationship between Adam Smith s moral and economic theories how John Stuart Mill s views on free speech might apply to contemporary controversies differences between John Rawls and Robert Nozick and between neoclassical and welfare liberals more generally Updated discussion of the Great Recession and broader issues of economic inequality Chapter 4 extended discussion of Edmund Burke s place within the conservative tradition Updated assessment of contemporary conservatism in light of Donald Trump s presidency new section on Christian Nationalism Chapter 5 extended discussion of Marx s theory of history Chapter 6 updated the status of the socialist and communist traditions in China Russia and the United States Chapter 7 charted the resurgence of far right and neo fascist politics in Europe Discussion of the Alt Right in the United States has been expanded including new sections on QAnon and the Great Replacement theory Also expanded upon discussion of whether fascism could gain serious traction in the United States and a new section on the reasons why some critics say Donald Trump is either a fascist or dangerously close to becoming one Chapter 8 updated sections on Black liberation and feminism including reference to George Floyd s murder and the Dobbs decision that overturned *Roe v Wade* Also new

material on settler colonialism and on the issues for all liberation ideologies raised by the case of undocumented immigrants and extended discussion of liberation theology Chapter 9 updated material on the severity of the climate crisis and the variety of responses that have emerged to address it Chapter 10 a new section on Hamas and extended discussion of protests against Islamist rule in Iran focusing on the responses to Mahsa Amini's death in police custody Also updated sections on ISIS and the Taliban in light of the former's erosion and the latter's return to power in addition to references to internecine conflicts among radical Islamists Chapter 11 updated reasons for the conclusion that there will be no end of ideological conflicts soon especially with the continued power of religious worldviews globalization and perhaps most especially the return of fascism worldwide Chicano Scholars and Writers Julio A. Martínez, 1979 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com
