Read the information below. Then complete the Isotherm map below using the temperatures and colors indicated.

A Weather Map is a tool used by meteorologists to forecast the weather. One type of map meteorologists use is called an Isotherm map. An Isotherm is a line that connects points on a map of the same temperature. Most weather maps use temperatures of 10° or 5° degree differences to represent isotherms. Use the information below to create an isotherm map.
