Medical Books and Serials in Print, 1979 R. R. Bowker LLC, 1979-05 [Interoception, Contemplative Practice, and Health](#) Norman Farb, Catherine Kerr, Wolf E. Mehling, Olga Pollatos, 2017-02-07 There is an emergent movement of scientists and scholars working on somatic awareness interoception and embodiment This work cuts across studies of neurophysiology somatic anthropology contemplative practice and mind body medicine Key questions include How is body awareness cultivated What role does interoception play for emotion and cognition in healthy adults and children as well as in different psychopathologies What are the neurophysiological effects of this cultivation in practices such as Yoga mindfulness meditation Tai Chi and other embodied contemplative practices What categories from other traditions might be useful as we explore embodiment Does the cultivation of body awareness within contemplative practice offer a tool for coping with suffering from conditions such as pain addiction and dysregulated emotion This emergent field of research into somatic awareness and associated interoceptive processes however faces many obstacles The principle obstacle lies in our 400 year Cartesian tradition that views sensory perception as epiphenomenal to cognition The segregation of perception and cognition has enabled a broad program of cognitive science research but may have also prevented researchers from developing paradigms for understanding how interoceptive awareness of sensations from inside the body influences cognition The cognitive representation of interoceptive signals may play an active role in facilitating therapeutic transformation e g by altering context in which cognitive appraisals of well being occur This topic has ramifications into disparate research fields What is the role of interoceptive awareness in conscious presence How do we distinguish between adaptive and maladaptive somatic awareness How do we best measure somatic awareness What are the consequences of dysregulated somatic interoceptive awareness on cognition emotion and behavior The complexity of these questions calls for the creative

integration of perspectives and findings from related but often disparate research areas including clinical research neuroscience cognitive psychology anthropology religious contemplative studies and philosophy **Zeitschriften 2008**,2008 **Current Catalog** National Library of Medicine (U.S.),1982 First multi year cumulation covers six years 1965 70

Clinical Hypnosis Ernil Hansen,Burkhard Peter,Thomas Gerhard Wolf,2024-09-02 Hypnosis is an interaction where a trance state of consciousness is induced and utilized to produce beneficial psychological and physiological changes by suggestions Used since ancient times today it is a scientific highly effective treatment in medicine freed from authoritarian manipulative and esoteric burden It allows communication with the unconscious mind where otherwise unrecognized and are organized and regulated A major advantage for patients is that after simple guidance they can use it themselves in the form of self hypnosis Moreover in acute medicine such as emergencies or surgeries patients often enter a natural trance state all by itself making hypnotic induction dispensable and hypnotic communication easy and fundamental However the potential of hypnosis is yet widely unknown or underrepresented both in psychotherapy and somatic medicine A deeper knowledge of clinical hypnosis and a wider distribution of relevant study results can bridge the historical living apart and bring back hypnosis to medicine Hypnosis and suggestions provide a model to explain a wide variety of beneficial as well as harmful effects in medicine and thus supplement the placebo nocebo model In addition hypnosis and hypnotherapy opens interesting scientific insights into human brain functions and into character and functioning of suggestions The goal of leaving the very special setting of books and hypnosis journals and presenting hypnosis to a wide spectrum of readers in psychology and medicine is to increase its visibility its impact and application The application concerns both the specific treatment of specific patients with specific complaints by an expert called hypnotherapy and the more general use of therapeutic hypnotic communication of health care personnel with all patients in all medical situations On the other hand hypnosis could benefit from a possible desirable stimulation of further research in this field Medical and Health Care Books and Serials in Print

,1986 **The Service User as a Partner in Social Work Projects and Education** Emanuela Chiapparini,2016-06-13 To become a competent social worker it is essential to know the perspective of the service users Therefore service users are more and more included in field research projects and the instruction of social workers to be However they are usually reduced to the role of informants and not actively taking part as co partners For the first time this anthology gives an overview of courses in which service users and students share their experiences and work together on the same level using gapmending methods The applications and evaluations of these courses in different European countries are discussed in this volume **Assessment Practices with Indigenous Children, Youth, Families, and Communities** Shaun Murphy,Trudy Cardinal,Janice Huber,Stefinee Pinnegar,2023-04-03 **Critical Ethnography, Language, Race/ism and Education** Stephen May,Blanca Caldas,2022-11-22 This book provides a contemporary overview of work in critical ethnography that focuses on language and race ism in education as well as cutting edge examples of recent critical ethnographic studies

addressing these issues The studies in this book while centred primarily on the North American context have wide international significance and interdisciplinary reach and address a range of educational contexts across K 12 education and less formal educational settings They explore the racialized construction positioning and experiences of bi multilingual students and the implications of this for educational policy pedagogy and practice The chapters draw on a range of critical theoretical perspectives including CRT LatCrit Indigenous epistemologies and bilingual education they also address significant methodological questions that arise when undertaking critical ethnographic work including the key issues of positionality and critical reflexivity
