**Modern Dictatorships** Caterina Preda,2017-07-19 This book analyzes the relationship between art and politics in two contrasting modern dictatorships Through a detailed look at the Chilean and Romanian dictatorships it compares the different ways in which political regimes convey their view of the world through artistic means It examines how artists help convey a new understanding of politics and political action during repressive regimes that are inspired by either communism or anti communism neoliberalism traditionalist conservative This book demonstrates how artistic renderings of life during dictatorships are similar in more than one respect and how art can help better grasp the similarities of these regimes It reveals how dictatorships use art to symbolically construct their power which artists can consolidate by lending their support or deconstruct through different forms of artistic resistance     **Preach the Word** Myles MacBean,2019-11-11 How should we help equip the church leaders of Africa today There remains a well documented lack of theologically sound Bible centric preaching in Sub Saharan Africa The majority of sermons are preached by untrained or undertrained church leaders Following a practical theology praxis this book develops a conceptual framework for the evaluation of existing alternative approaches to grassroots preacher training It also proposes broad principles for effective preacher training and offers a practical solution The 20th century had seen the Christian church in Africa grow 36 fold to 360 million This amazing growth is arguably the largest religious change in human history in such a short period It has shifted the focus of Christianity from North to South This rapid growth is debatably considered by some missiologists and theologians to have resulted in an African church a mile wide and an inch deep That is a church of great size but lacking in spiritual depth The rapid growth has led to insufficient numbers of trained leaders being available to oversee their congregations Most leaders are unpaid Untrained or undertrained leaders have an inadequate knowledge of scripture and lack understanding of its interpretation They also lack the skills they need to communicate its truths Even so they preach up to 90% of the sermons in rural Africa Despite a tremendous hunger for training among many of those preachers traditional college based theological education cannot keep up with the demand for trained pastors and preachers in an affordable or culturally appropriate manner
