Collaborations Jörg Sydow,Hans Berends,2019-10-04 This volume contains two Open Access chapters Volume 64 of Research in the Sociology of Organizations takes stock of research on processes of inter organizational collaboration and explores new topics that call for inquiry **The Metabolism of Islands** Simron Singh,Marina Fischer-Kowalski,Marian Chertow,2021

This book makes the case for why we should care about islands and their sustainability Islands are hotspots of biocultural

diversity and home to 600 million people that depend on one sixth of the earth's total area including the surrounding oceans for their subsistence. Today they are at the frontlines of climate change and face an existential crisis. Islands are however potential hubs of innovation that are uniquely positioned to be leaders in sustainability and climate action. This volume argues that a full fledged program on island industrial ecology is urgently needed with the aim of offering policy relevant insights and strategies to sustain small islands in an era of global environmental change. The nine contributions in this volume cover a wide range of applications of socio metabolic research from flow accounts to stock analysis and their relationship to services in space and time. They offer insights into how reconfiguring patterns of resource use will allow island governments to build resilience and adapt to the challenges of climate change.

Research Handbook of Expatriates Yvonne McNulty, Jan Selmer, 2017-05-26

In the *Research Handbook of Expatriates* Yvonne McNulty and Jan Selmer have created a seminal work that should be on the bookshelf of all social scientists who work in the field of expatriation. More senior scholars will appreciate the deep dive each chapter takes into the literature, each one acting as a reservoir they can draw from to powerfully inform their future research efforts. Doctoral students and newly minted PhDs will find this book to be especially valuable; the final chapter of the book alone provides inestimable career and how to publish guidance for them in the field of expatriation. The coverage of the history, construct, milieu, research methodologies and issues is the best I have come across in a single volume in over 30 years of working in the field. In short, this is a monumental contribution to the study of expatriates and global mobility.

Mark E Mendenhall, University of Tennessee

McNulty and Selmer's edited volume does a wonderful job of consolidating and integrating everything we know about expatriates and their different types. This long overdue Handbook featuring chapters by top researchers lays a trail for scholars to further advance the study of expatriates.

Joyce Osland, San Jose State University

McNulty and Selmer's edited book of readings on virtually all aspects of expatriates deserves a prominent place in the library of researchers and practitioners interested in this subject. The Handbook provides a historical overview as well as the latest trends in expatriate studies and concludes with useful guidelines on how to conduct as well as improve the quality of research in this field.

Rosalie L Tung, Simon Fraser University, Canada

Constituting a comprehensive and carefully designed collection of contributions, the *Research Handbook of Expatriates* provides a nuanced and up to date discussion of expatriates. Theoretically broad and groundbreaking, it offers important and contemporary insights into emerging areas of research warranting future consideration. Drawing upon a range of perspectives from the field's most distinguished academics, contributions review the history of the literature in relation to expatriates from the development of the expatriate construct through to the current state of research on business expatriates. Subsequent chapters progress into detailed examinations of the various types of business expatriates including LGBT self initiated expatriates, female assignees, inpatriates, international business travellers and commuters, and millennials. Other themes include expatriate performance, adjustment, expatriates to and from developing countries, global talent management and expatriates safety and security. The

Research Handbook also covers expatriates in diverse communities such as education military missionary sports and Aidland and provides additional commentaries relating to methodological issues research with practitioners case studies biculturals and ATCKs and global families The Research Handbook concludes with publishing advice for PhD and early career researchers Stimulating insightful new areas of study this collection is a must read for academics and scholars in the field of expatriate research international management global human resource management and business administration It also offers a wealth of guidance for executives and recruiters along with expatriates and professionals who may expatriate Contributors M Andresen C Brewster L Care J L Cerdin L Clarke D G Collings M Collins A Corbin M Crowley Henry M Dickmann H Dolles R Donohue C Doss B Egilsson A Fee K L Fisher K J Hanek A Haslberger T Hippler K Hutchings M Isichei J Luring L M kel R McPhail S Michailova M Moeller B Oberholster
