Literature Review Title: Impact of Digital Technology on Adolescent Mental Health

I. Introduction

Digital technology has become an integral part of adolescents' daily lives. The pervasive use of smartphones, social media, and other digital platforms has raised concerns about its impact on mental health. This literature review aims to synthesize current research on the relationship between digital technology use and adolescent mental health, focusing on both negative and positive effects.

II. Methodology

The literature for this review was gathered from multiple academic databases including PubMed, PsycINFO, and Google Scholar. Keywords used in the search included "adolescent mental health," "digital technology," "social media," "smartphones," "internet use," and "mental well-being." Studies selected were peer-reviewed, published within the last ten years, and focused on adolescents aged 12-18.

III. Negative Effects of Digital Technology on Mental Health

A. Increased Anxiety and Depression

1. **Screen Time and Psychological Distress:** Several studies have shown a correlation

between excessive screen time and increased levels of anxiety and depression among adolescents.

- **Study Example 1:** Twenge and Campbell (2018) found that adolescents who spent more than three hours per day on electronic devices were more likely to report high levels of depressive symptoms.
- **Study Example 2:** Przybylski and Weinstein (2017) reported that high levels of screen

Coverage includes Definition and deep background sources, Specialized dictionaries, encyclopedias, and handbooks, Current research, Journal Articles and Annual Reviews, Tests and Measures, Bibliographies, U.S. Government Resources, Biographical Resources, Directories and Organizations, Style Guides, Diagnostic Measures, Career Path and Educational Resources, Book Reviews, Major Museums and Archives. *Writing the Literature Review* Sara Efrat Efron, Ruth Ravid, 2018-09-25 This accessible text provides a roadmap for producing a high-quality literature review, an integral part of a successful thesis, dissertation, term paper, or grant proposal. Each step of searching for, evaluating, analyzing, and synthesizing prior studies is clearly explained and accompanied by user-friendly suggestions, organizational tips, vignettes, and examples of student work. Also featured are excerpts from peer-reviewed quantitative, qualitative, and mixed methods articles. This is the first book to focus on crafting different types of reviews: systematic, traditional narrative, or hermeneutic/phenomenological that reflect the writer's research question, methodological choices, and approaches to knowledge. It describes what all reviews have in common and highlights distinct characteristics of each type. The book includes dos and don'ts for evaluating studies and constructing an argument and software suggestions for locating, organizing, and arranging sources. Pedagogical Features: Checklists and To Do activities that break down key steps to take; Boxed examples, graphics that organize and visually illustrate key concepts and summary tables; Group activities that invite students to further explore and apply the methods discussed in each chapter; Detailed directions for using four different organizing strategies: synthesis matrix, summary table, mapping, and topic outline; End of chapter summaries and What's Next sections; Assessment matrices for reviewing and refining the completed literature review. Winner, First Place American Journal of Nursing Book of the Year Award, Nursing Research Category. *Literature Review and Research Design* Dave Harris, 2019-11-26 Designing a research project is possibly the most difficult task a dissertation writer faces. It is fraught with uncertainty: what is the best subject? What is the best method? For every answer found, there are often multiple subsequent questions, so it's easy to get lost in theoretical debates and buried under a mountain of literature. This book looks at literature review in the process of research design and

how to develop a research practice that will build skills in reading and writing about research literature skills that remain valuable in both academic and professional careers Literature review is approached as a process of engaging with the discourse of scholarly communities that will help graduate researchers refine define and express their own scholarly vision and voice This orientation on research as an exploratory practice rather than merely a series of predetermined steps in a systematic method allows the researcher to deal with the uncertainties and changes that come with learning new ideas and new perspectives The focus on the practical elements of research design makes this book an invaluable resource for graduate students writing dissertations Practicing research allows room for experiment error and learning ultimately helping graduate researchers use the literature effectively to build a solid scholarly foundation for their dissertation research project
